INSTRUCTIONS FOR USE

Charging Instructions

The Bluetooth Headphone has built-in rechargeable battery and wireless charging receiver. When the battery is drained out, it would turn OFF automatically. Please recharge the battery by following either method every time it drains out.

Method 1: Plug the Micro USB end of the included USB rechargeable cable into the charging port. Plug the other end into a USB port on your computer or other devices made for USB charging. Red LED Light Illuminates indicating that the device is being charged.

It takes 2-3 hours to fully charge the Headphone. Once the Headphone is fully charged, red LED Light on the device would turn blue.

Switching on/off the device

Press and hold the ON/OFF button for 4 seconds to turn on the device, or 3 seconds to turn off.

Pairing the device with Bluetooth devices (phone or music device)

Ensure the device is turned off, then press and hold the ON/OFF button for 4 seconds to turn on the device, and the LED flashes red and blue. After few

(included) to a power outlet rated DC 5V 2A, red LED indicator light around the wireless charging pad turns on, then, put the Headphone with its Wireless charging receiver on the middle position of the wireless charging pad will turn to auto charge of blue LED light indicating that the device is being charged.

It takes 2-3 hours to fully charge the Headphone. Once the Headphone is fully charged, red LED Light on the device would turn blue.

Switching on/off the device

Press and hold the ON/OFF button for 4 seconds to turn on the device, or 3 seconds to turn off.

Pairing the device with Bluetooth devices (phone or music device)

Ensure the device is turned off, then press and hold the ON/OFF button for 4 seconds to turn on the device, and the LED flashes red and blue. After few

seconds, you would hear an indication tone. Place the Bluetooth Headphone and Bluetooth device (phone or music device) so that they are no further than 1 meter apart.

Activate the bluetooth function on your bluetooth device (phone or music device). Please refer to the manufacturer's instructions for instructions on enabling bluetooth on your device.

Once you have activated bluetooth on your device, select the "Freedom V10" from the list of available bluetooth devices.

If required, enter the password '0000' to confirm & finalize pairing.

Once paired successful, you would hear another indication tone, and the led flashes blue slowly.

You can now start to use the device.

If pairing is unsuccessful, turn the device off and then re-pair following the above steps.

The bluetooth headphone will attempt to automatically connect to the last device it was paired with when switched on. If you want to pair it with a new device, please follow the steps outlined above.

Once the Bluetooth headphone is paired with your

device the music will transmit through the bluetooth Headphone. Please refer to your device's user manual for further information.

Function Summary Listening to Music

Once the Headphone is paired with your device you can stream music wirelessly through the Bluetooth Headphone. Should you encounter any problems while streaming please refer your device's user manual for further information.

STEREO HEADPHONES

SOUNDLOGIC by itek®

This feature enables you to ask questions and seek assistance on a number of things from your Voice Assistant, even when you're several feet away from your phone. Below are some of the many examples listed below.

Note: Google Assistant is available on eligible Android 5.0 devices or later. Works on Lollipop, Marshmallow and Nougat Android Phones with Google Play Services. 25GB of memory and 200P or higher screen resolution. Please ensure Google Assistant App is downloaded and made as default Voice Assistant on your mobile device.

While the headphone is paired using Bluetooth, short press the Voice Assistant button once to start conversation with your Siri or Google Assistant. An indication tone would be heard before you speak into the headphone.

Example 1: Short press the Voice Assistant button once and then speak into the headphones, hear the weather today? Voice Assistant will reply with something like: mainly cloudy with a few showers.

Example 2: Short press the Voice Assistant button once, and then speak into the headphones, what's the time now? Voice Assistant will reply with something like: It is 10:00 now.

More examples:
Set an alarm for 7am tomorrow.
Play some music.
What's in the news?

Listening to Music using Micro SD (TF) card slot

- Turn on the Headphone.
- Insert Micro SD (TF) card preloaded with songs into the Micro SD (TF) card slot, music would be automatically streamed.
- To Skip Next Track - Short press the Next Track button.
- To Skip Previous Track - Short press the Previous Track button.
- Press Play / Pause button to Play or Pause a track.
- Long press the '+' or '-' button to increase or decrease the volume.

Note: While using Bluetooth, if you insert Micro SD (TF) card, Headphone would disconnect the Bluetooth connection and switch to Micro SD (TF) card function. You can short press the Mode button twice again, to select the Bluetooth mode.

Listening to Music using Aux-In Mode

Insert the 3.5mm auxiliary cable (provided) to the Aux input of the Headphone. And, the other end of the cable connects to the audio device (such as computer/tablet etc.).

Select your favorite song at the source device and play.

(Note: Using this Aux-in mode, you do not need to turn on the Headphone, and you need to control the volume increase/decrease, play/pause, next/previous track through your source device only.)

LED INDICATOR

Please refer to the below tables for a list of the LED statuses whilst using the Bluetooth Headphone.

LED Indicator	Status of the BT Headphone

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
