# User's manual

**Getting started**

Remove the product from the box.

Remove any packaging from the product.

Please retain all packaging after you have checked and counted all the parts and the contents against the list.

**Packing list**

Headphone*1

Dual 3.5mm Audio Cable*1

Micro USB Charging Cable*1

User's Manual*1

**Power on and Bluetooth connection**

Follow the steps (Please confirm that your phone is built-in Bluetooth function)

1. Activate the Bluetooth function and search for "Soundlogic XT" referring to your phone instructions.
2. Manually click "Soundlogic XT" to connect. If the LED stops flashing with a "Di Di" indication tone, the connection is successful.

NOTE :

Pairing mode can just last 600 seconds, if you miss the pairing time, you need to restart the device and operate follow the procedural steps mentioned above.

The headphone can automatically connect the last device that you had paired.

Headphone will lose the connection when deviate the working range of Bluetooth. The headphone will connect automatically if you come back to the range in 3 minutes.

The headphone will work better without any obstacles (include your body) between headphone and phone.

**Power off**

Hold on the Play/Pause button for 5 seconds until the LED indicator shuts down.

**Warnings**

1. Please follow the instruction to operate
2. Please store or use the headphone in a normal temperature environment.
3. PLS keep the headphone from water. Don't immerse the product into liquid and protect it from splashing.
4. PLS keep the headphone from heat source, such as radiators, hot air regulators, Stoves, or other heat generating instruments. As it is not anti-high temperature.
5. Don't block the ports of the headphone, such as charger port, LED port and microphone etc.
6. In order to protect your hearing and extend the speaker service life, it is not recommended to adjust the volume to the maximum level for a long time.
7. Keep the unit out of reach of children. This product is not a toy.
8. Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.   This device complies with Part 15 of the FCC Rules.  Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received,  including interference that may cause undesired operation.
