Compliance and FCC statements:
This equipment has been tested and found to comply with the requirements for operation in the uncontrolled environment. This equipment may not be co-located or operating in conjunction with other devices that may cause undesired operation.
If this equipment does cause harmful interference, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a different circuit.
- Consult the dealer or an experienced radio/television technician for help.
This equipment complies with FCC radio frequency (RF) emission limits for operation in the uncontrolled environment. This equipment must be co-located or operating in conjunction with other devices that may cause undesired operation.
IC statements:
This device complies with Industry Canada (IC) requirements for operation in the uncontrolled environment. Operation is subject to the following two conditions: (1) the device must not cause interference, and (2) the device must accept any interference, including interference that may cause undesired operation.
Le présent appareil est conforme aux CNR (Canada) pour l'exploitation en environnement non contrôlé. L'appareil doit accepter tout brouillage radioélectrique susceptible d'en compromettre le fonctionnement.
