Disconnect BT	Press and hold the multi-function button of any of the two speakers for 2 seconds

- 06 -

#### Power On / Off

- Press and hold the power button for 2 seconds to turn on/off the speaker

#### Pairing

- When you turn on the speaker, it will automatically enter pairing mode.
- Activate the pairing function on your phone and select "QFX BT-ZX1".
- If a code or pin is required for pairing, enter "0000" as the default code.
- When successfully paired, you will hear a beep.

#### Note

- If you want to use another device to connect to the BT-ZX1, please press and hold the multi-function button "Play/Pause" for 2 seconds to disconnect BT-ZX1 from the current device. Then repeat the "pairing" steps.
- When you turn the speaker on, it will automatically reconnect to the last-paired device. You can also enter pairing mode if no device is found.
- When the speaker is paused, or there is no Bluetooth connection, the speaker will automatically shut down after 10 minutes

- 07 -

#### Playing Audio via Audio Input Connection

Connect the BT-ZX1 to your PC, laptop, or other devices with the audio output port using the included 3.5mm audio cable.

#### Note

- The speaker will disconnect from your phone or other paired devices when an audio cable is plugged into the audio input jack. Press the power button to switch back to BT mode

- 08 -

#### Product Care & Use

- Keep away from extreme heat and strong magnetic fields
- Do not use this speaker at high volume for extended periods, as this may cause permanent hearing damage or hearing loss

- 09 -

#### Note

- Activate the pairing function on your phone or other compatible device and select "BT-ZX1"
- If a code or pin is required for pairing, enter "0000"
- When successfully paired, you will hear a beep.

#### Note

- When the phone is connected to the Bluetooth of one of the speakers first, you need to double-click the power button of the speaker connected to the phone to enter the TWS pairing mode
- After the TWS pairing is successful, double-click the power button on one of the speakers to automatically exit the TWS pairing mode. The BT connection between the home speaker and phone will not disconnect.

#### Note

- Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
- Radiation Exposure Statement  
The device has been evaluated to meet general RF exposure requirement, in portable exposure condition without restriction.
