PARTS AND FEATURES

2

USING THE COLORFLOW LAVA LAMP

NOTE: This lamp operates at a very high temperature. Do not touch the lamp if it's ON or has recently been ON. Wait for it to cool down completely.

STEP 1: ASSEMBLING THE LAMP

- Make sure the lamp is placed on a solid, stationary flat surface, and that it is not at risk of falling or tipping over.
- Insert the glass enclosure into the base, making sure it is properly and securely installed.
- Place the top cap on the glass enclosure.

STEP 2: CONNECTING THE LAMP TO A POWER SOURCE

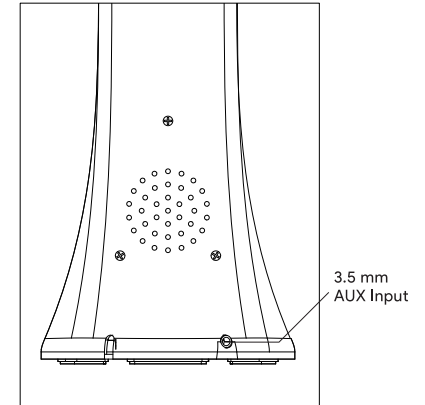

- Insert the power plug into a nearby AC wall outlet.
- Turn the power switch on the lamp to the ON position (see diagram for reference). This will turn the light and speaker ON.
- It can take up to 3 hours for the wax to heat up and start flowing.

STEP 3: USING THE SPEAKER

Bluetooth Connection: Turn the lamp ON. It will automatically enter Bluetooth pairing mode. Open your device's Bluetooth menu, search and select "TzumiLED Lava Lamp." The lamp will pair to your device and be ready for use.

3

AUX Connection: Plug the included 3.5 mm AUX cable into the AUX port on the back of the unit (see diagram for reference). Once connected, insert the other end into your device's audio jack. The lamp will automatically enter AUX mode. You may now control the media and volume from your device.

FCC Compliance Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference, and
 (2) this device must accept any interference received, including interference that may cause undesired operation.
 Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
 This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
FCC Radiation Exposure Statement
 This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
 This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
 This equipment should be installed and operated with minimum distance 5 20cm between the radiator& your

CLEANING, STORAGE & TIPS FOR USE

- Do not carry or move the lamp by holding the glass enclosure. Always carry or move by the base of the lamp.
- The lava lamp will get extremely hot. Make sure the surrounding area is free of any flammable objects.
- Place the lamp away from extreme cold or warm temperature sources, such as heating or air conditioning vents.
- Only use fine glass cleaners and a soft cloth to clean your lamp. Never use harsh chemical cleaners.
- Always unplug your lamp from its power source before cleaning.
- Before carrying/transporting the lamp, check to make sure the wax is completely flat and solidified.
- If you plan to store your lamp for long periods of time, ensure that the unit does not reach temperatures below freezing. Store the lamp in its original box. Only store your lava lamp on a cool, dry, and flat surface.
- Never heat up or cool down the lamp artificially. Doing so could permanently damage the unit.

7

- This lamp is not a toy and should be kept out of the reach of children and pets.
- Do not disassemble or modify your unit in any way.
- Do not break the seal of the cap.
- Do not ingest the lava lamp's liquid contents. Doing so could cause serious harm or injury to the user.

Never use your lava lamp if:

- It has a damaged cord or plug.
- It is not working properly.
- It has been dropped or damaged.
- It has been dropped in water.
