Product Diagram

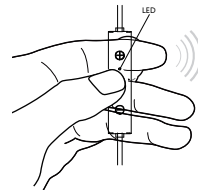

Specification

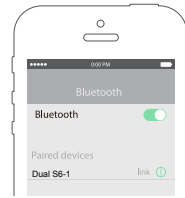

Model name	Dual S6-1
Bluetooth version	V5.0
Bluetooth chipset	QCC3005
Weight	14g
Play time (varies by volume level and content)	5-7 hours
Standby time	240 hours
Charging time	Approx. 2 hours
Battery capacity	100mAh
Impedance	16Ω
Frequency response	20Hz-20KHz
Operation range	10m(no obstacle)
Water Proof Level	IPX5

Pairing

1. Press and hold its MFB for about 3s until you hear “power on” or the LED indicator flashes blue and red alternately;

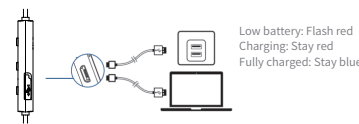

2. Scan for new devices on your phone’s Bluetooth settings. Select Dual S6-1 to pair with your phone. Once connected, you will hear a tone say “connected” .

Tip:

- (1) If the pairing isn't completed within 90 seconds while the pairing mode is activated, please restart the earphones and try again.
- (2) If a previously connected device is available for pairing, the earphones will connect to it automatically when switched on. If not, the earphones will enter pairing mode.

Charging

Tip: Use the included USB cable to charge your earphones. Make sure they are fully charged before first use.

Trouble Shooting

1. Unable to pair DualS6-1 with your Bluetooth device.
 - Please ensure that the earphones are in pairing mode;
 - Reboot your Bluetooth device;
 - Switch off and restart your earphones.

2. The earphones fail to connect with a previously paired Bluetooth device.
 - Ensure the source device's Bluetooth is switched on;
 - Turn the Bluetooth feature off and then on.
 - Delete “Dual S6-1” from the Bluetooth list on your device and pair again.
3. Poor connection.
 - Move your Bluetooth device closer to the earphones;
 - Try moving to a different area in case of any interference.

Care & Maintenance

1. To extend the lifetime of the battery, we recommend that you recharge your earphones at least once a month.
2. Please use the charger provided to charge the earphones. Use of other low-quality chargers may lead to issues.
3. Do not use any abrasive detergent to wipe or clean the earphones.
4. Keep the earphones within a range from 0°C - 45°C (32°F to 113°F) all the time.
5. Avoid using the indicator close to the eyes of children or animals.
6. Never disassemble or modify your earphones for any reasons to avoid any issues.

Notice

This product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling.

Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
