

# WiFi SMART SOCKET USER MANUAL

WiFi Smart Socket  
with  
Night Lighting

## WiFi Smart Socket with Night Lighting

You can control night lighting with APP.

### Having an APP in your Smart Phone

1. Download "Smart Life" from APP Store (iOS) or Google Play Store (Android) or scan QR code below

2. Create a Smart Life account by your phone number.

## Two Ways to add a New Smart Device

### A. Quick Connection Mode

1. Press the power button for 3 seconds to make it standby (The LED light flashes twice per second).
2. Go to Smart Life APP and click "+" to add your smart device.
3. Connect your WIFI.
4. Name your smart device and click "OK".

### B. AP Mode

1. Press the power button for 10 seconds to make it on AP mode (The LED light flashes once per 2 seconds).
2. Go to Smart Life APP and click "+" to find the "AP Mode" on the upper right corner of the APP.
3. Click "AP Mode" and connect your WIFI.

4. Go to WLAN Setting and select "Smart Life" for your WIFI.
5. Back to Smart Life APP and press "Connect".
6. Name your smart device and click "OK".

### How to Sync with Amazon Alexa

1. Open your Alexa APP and log into your Amazon account.
2. Go to "Skills" and search "Smart Life".
3. Click "Smart Life" and press "Enable".
4. Input your Smart Life account and password.
5. Discover the devices by Alexa APP or speak "Discover my devices" to Alexa.
6. Now you can control your smart devices by voice.

### How to Sync with Google Assistant

1. Open your Google Home APP and log into your G-mail account.
2. Go to "Home Control" and find "Smart Life" in the list.
3. Click "Smart Life" and input your Smart Life account and password.
4. Now you can control your smart device by voice.

### Q & A

7. Make sure Smart Life account and password is correct.

#### How to reset the smart device?

Press the power button for 6 seconds.

#### How to share my smart devices with families?

Go to Profile and click "Device Sharing", enter your families' account.

## **FCC STATEMENT :**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

## **FCC Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
