

Smart Lock Box

User Manual

Product Parameters:

Material: Zinc Alloy/ ABS
Overall Size :145*105*55mm
Working Voltage :4.5-6 V
Working Temperature : -20°C~60°C

Power Interface: Micro USB
Internal Size :112*80*28mm
Battery Life :12+ months
Waterproof Rating: IPx5

Accessories:

Key Box	--1 Piece	User Manual	--1 piece
Drill Template	--1 Piece	USB Cable	--1 piece
Bolts	--4 Pieces	Screws	--4 Pieces

Installation :

- 1) Mark 4 positioning points on the wall or door with the drilling template.
- 2) Use electric drill to punch holes in marking positions (Ø6 x30 mm), then insert the plastic bolts.
- 3) Open the front lid and fix it with the screws in the installation bag.

Notes:

- 1) The 4 AAA alkaline batteries are not included. Please use Micro USB cable to connect the charging port then enter 123456+OK button to open the lid to install the batteries before getting start.
- 2) After the lock box is configured, the initial password 123456 will be invalid and needs to be modified in the password settings.
- 3) It needs network connection to set password, view record, remove device.
- 4) Once the box is bound, only need to enable Bluetooth to unlock.
- 5) The family members are the administrators, with all permissions to set and modify passwords, share devices, view records, etc....
Other members, who join the group via invitations are ordinary users, only allow to unlock via mobile phone or the passwords shared by the administrator.

FCC, CE, RoHS Certificates

In the smart scenes, the user will have better experience by using these functions. Please follow the instructions to edit the scenes.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
