Columbia, MD 21046

Subject: Class II permissive Change for FCC ID: 2AOSO1M01831

The product, Wi-Fi and Bluetooth module, has been granted modular certification to Texas Instruments Incorporated by FCC dated 02/03/2014, FCC ID Z64-WL18SBMOD.

The FCC ID of the authorized equipment was changed to FCC ID 2AOSO1M01831 and was assigned to L3 Mobile-Vision, Inc. by FCC.

Now we, L3 Mobile-Vision, Inc. would like to modify the authorized equipment for below changes:

- Integration of the module into L3 Mobile-Vision, Inc. Body Camera System (model BWX-100 Camera System)
- This host uses only one antenna and the antenna will have (0.38 dB) higher gain than the original filing. The details of the antenna are contained within this filing.

Except for the change above, no other modification is performed. Also, the change does not have any impact on the approved radio parameters such as power, frequency range, modulation etc.

Sincerely,

Kurt Kessel  
VP of Engineering
