FCC WARNING:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

FCC RF exposure statement:

The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and

Use Instruction

1. Please use a good brand 5V,2A adapter or 9V,2A fast charging adapter.

2. Connecting power with USB port, the indicator will light up for 3 seconds when power is on.

3. ① Locate your phone on charging pad and make sure it is on sweet spot for effective charging.

LED lights up for 3s

LED lights up for 15s

Charging line

② When the phone is charged successfully, the LED indicator will light up for 15 seconds then off to keep the whole charging process sleep-friendly.

Product Specification

Model: RC400

Size: 89.4mm*11mm

Input: 5V ---2A ,9V ---2A

Output: 10W Max

Charging Distance: 4mm-6mm

Coil: 1 coil

Attention

1. Keep the charger away from water and other liquid.
2. Please make sure the power is cut off before cleaning the charger
3. Use the charger between 0-40°C
