- This product is not a toy.

#### Description of Parts:

#### INSTRUCTIONS FOR USE

- Connect the USB cable (included) to a power outlet rated DC 5V/2A, and the Micro USB plug to the Micro USB input of the Wireless Charging Pad. Red light around the unit will turn on.
  - Place your Qi Integrated phone on the charging pad, and wireless charging of the phone will start immediately with auto-change of Blue light intensity around the unit.
- IMPORTANT:** Some phone cases do not support Wireless Charging due to their thickness and design. If your Phone model is compatible with Wireless Charging and you're unable to charge it wirelessly, please remove your phone case and retry.

#### Care and Maintenance

Read the following recommendations before using the product. Following these you will be able to enjoy the product for many years.

- Do not expose the Wireless Charging Pad to liquid, moisture or humidity to avoid the product's internal circuit being affected.
- Don't use abrasive cleaning solvents to clean the device.
- Do not expose the device to extremely high or low temperature as this will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
- Don't dispose of the device in a fire as it will result in an explosion.
- Don't expose the device to contact with sharp objects as this will cause scratches and damage.
- Don't let the device fall on the floor. The internal circuit might get damaged.
- Don't attempt to disassemble the device as it may get damaged if you are not professional.

#### Specifications

Input: DC 5V/2A  
Output: DC 5V/1A

#### FCC Instructions

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B

digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
