Device Guide

Pairing The Speaker

1. Slide the power switch to the ON position. The speaker body will light and indicate that it is ready to pair.
 2. Activate the Bluetooth™ feature on your device, and set the device to discovery mode to search for wireless audio devices. (See the User Manual for your device)
 3. Tap the Speaker on your device displayed as Sylvania SP681. (if pass code is requested enter 0000)
- * Once the Speaker has been paired, it will automatically connect with your device, when they're both on.

Playing Music

1. Once the Speaker is paired, press play on your device.
2. Short press the Play/Pause button to pause playback, and again to resume.
3. Short press the + button to go to the next track, or long press the button to raise the volume.
4. Short press the - button to go to previous track. Long press to decrease the volume.

The Speaker Lights

- When you turn on the Speaker, the default Light pattern is following the beat of the music.
- Press the Light button on the base, and the pattern changes to Fade-in/Fade-out pattern.
- Press the Light button again, and the pattern changes to blinking colors.
- Tap the Color Bar to switch to a new color. This feature can be accessed from any of the Light patterns.
- One of the Light button settings is light off. If you tap the Color Bar from the light off setting, you will get a solid color light.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
