4.Appendix

4.1 Techinical Specfication

Sensor	800-megapixel CMOS sensor, Up to 24 million pixels (interpolation)
Sensibily	Auto, ISO50, ISOIOO, ISO200, ISO400
Storeage midea	class 6 SD/SDHC card or higher ,max memory 32GB
Lens	Lens fixed F/3.2,f=7.5mm
Focus Range	Normal 0.7MM infinity
Image	File format JPEG Resolution,24M,20M,16M,12M,10M, 8M,7M,5M,3M,2M
Video	File formatAVI Resolution: FHD 1080P/30fps, HD 720P/60fps, HD 720P/30fps, VGA 640X480/60fps
Metering mode	center,multi,spot
Anti-shake	Auto
IR light	yes,+3M
Remote control	yes,+6M
Screen	3.0 Inch TFT screen
WIFI	yes,preview and remote control with cellphone
White Balance	Auto/Sunlight/Cloudy/Lamp/Fluorscent(H)/Fluorscent(L)
Exposure	-2.0EV+2.0EV
Self timer	off ,2s ,10s two continue shooting
TV output	HD , NTSC/PAL
PC interface	USB 2.0
Auto power off	off ,1min ,3mins ,5mins
Dimension	128（L）×55（W）×59（H）mm
Weight	around 295±5g

4.2 common problem and solution

Suddently shut down	Possible causes	Solutions
Questions	Not properly install battery/ No battery	Properly install battery according to the manual/Charge battery
Unbootable	Opened power saving/No battery	Repeatedly open power supply/Exchange new battery
Not sotre the shot video	Interrupt power before storing the photo	When the battery indicator becomes red, immediately exchange the new battery or charge the battery.
Automatically close when self shooting	No battery	Exchange new battery/Charge battery
Ambiguously focusing	Out of focus range	Shoot in focusing range
Not use memory card	Protected memory card/ Error document format Damage memory card	Release memory card protection/ Format memory card Exchange th qualified memory card
Inaction of all keys	Short circuit in connection of the machine and other device	Repeatedly check the connecting circuit/ Take out the battery and repeatedly open the machine

FCC Statement

Changes or modifications not expressly approved by the party responsible

for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a

Class B digital device, pursuant to Part 15 of the FCC Rules. These limits

are designed to provide reasonable protection against harmful interference

in a residential installation. This equipment generates uses and can radiate

radio frequency energy and, if not installed and used in accordance with

the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or

television reception, which can be determined by turning the equipment off

and on, the user is encouraged to try to correct the interference by one or

more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.
