

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a green circular printed circuit board (PCB) with various electronic components. The components include a large red rectangular component, several smaller black and silver components, and a central integrated circuit. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's diameter being approximately 100 mm.
Solder Board-Component View 2	 A photograph of the same green circular PCB from a different angle, showing the underside. The board features a large silver rectangular component, several smaller black and silver components, and a central integrated circuit. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's diameter being approximately 100 mm.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) with various electronic components. The board is oriented horizontally. On the left side, there are two USB-A ports. Moving right, there is a large toroidal inductor, a small green component, and another toroidal inductor. Further right, there is a black electrolytic capacitor, a small green component, and a yellow component. The board is marked with "REV3.0", "2021.02.03", and "MT330PL-01". A ruler is placed below the board, showing measurements in millimeters. The background is blue.
Solder Board-Component View 4	 A photograph of the same green printed circuit board (PCB) from a different angle, showing the underside. The board is oriented horizontally. Various components are visible, including a large toroidal inductor, a small green component, and a black electrolytic capacitor. The board is marked with "REV3.0", "2021.02.03", and "MT330PL-01". A ruler is placed below the board, showing measurements in millimeters. The background is blue.
