

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled M1810PY-1C, REV3.1, 20210127. The component is positioned horizontally against a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component features several components: SW1 (UP/DN), SW2 (DOWN), SW3 (SET), and SW4 (SMOOTHER). The background is a blue textured surface.
Solder Board-Component View 6	 A photograph of a yellow printed circuit board (PCB) component, labeled CN1B, 11112000. The component is positioned horizontally against a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component features a central connector labeled CN1B. The background is a blue textured surface.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) populated with various electronic components. A large, circular silver component, likely a battery, is mounted on the left side. The board is densely packed with integrated circuits, resistors, and capacitors. It is placed on a blue textured surface next to a black ruler with white markings in millimeters.
Solder Board-Component View 8	 A photograph of a yellowish-green printed circuit board (PCB) with fewer components than the previous one. It features a large rectangular area in the center, possibly a solder mask or a placeholder for a component. Several small electronic components are visible along the edges. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters.
