- Do not put the rope in very wet or hot environment.
- Avoid hitting or dropping the rope violently, otherwise damage may occur.
- Treat the rope with care as it is an electronic instrument.
- Do not immerse the handle into water or use it while raining, because it is not water-proof and damage may occur to the built-in electronic device.
- The rope is only used for the purpose of physical exercise. Do not use it for other purposes.
- Be careful when using the rope to avoid any injuries, and children under 10 are suggested to use the rope under the watch of parents.

Battery and recharge

Battery: The rope has a AAA battery which could sustain normal use of about 90 days (calculated based on a daily use of 15 minutes, actual using time varies according to the environment and time of use). The typical stand-by time is 6months (experimental data of the manufacturer under the temperature 25°C and humidity 65%RH). If the signal appears on the display, please replace 2*1.5V/AAA dry batteries in time to avoid affecting the normal use of the equipment.

Disposal

- The packaging material is recyclable. Please dispose of it in an environmentally friendly manner and take it to a recycling centre.
- Dispose of the device in an environmentally friendly manner. Dispose of it at arecycling centre for used electrical and electronic devices. You can obtain more information from your local authorities.

The batteries should be removed prior to disposal of the device and disposed of separately from the device. To protect the environment, non-rechargeable and rechargeable batteries may not be disposed of with normal household waste, but must be taken to suitable collection points. Also note the relevant statutory regulations governing the disposal of batteries.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
