

**Chongqing ARTOP Yuli Technology Co., Ltd.**

# **user manual**

## **Product parameters**

Product name : Wireless Speaker

Model : Spring-A

Battery capacity : Lithium battery 3.7V 300mAh

Vocal tract system : Mono

Charging time : 1-2Hour

Long call : 2-3Hour

Playback length : 2-3Hour

Support Bluetooth protocol : A2DP/AVCTP/AVDTP/AVRCP/HFP/SPP/SMP

Bluetooth working frequency : 2.402MHz-2.480Mhz

Charging input standard : USB 5V-200mA

Signal-to-noise ratio : 60dB

## **Product characteristics**

- 1、 New small styling
- 2、 Fashion and convenience , ABSShell , Sturdy and durable
- 3、 New pressing operation experience , Convenient operation
4. 300mALithium battery , Sustainable use 2-3Hour

## **Indicator lamp**

Pairing state : Blue light flicker

Successful pairing : Blue light flicker

Playback state : Blue light flicker

Address: No. 1, South Road, University City, Shapingba District, Chongqing, China

## **Chongqing ARTOP Yuli Technology Co., Ltd.**

Pause state : Blue light is always bright

Charging state : A red light is always on

Charging completion : The red light goes out

Battery depletion : Automatic shutdown ( Full extinction of light )

### **Pedagogical operation**

Open the machine : Long press the fuselage for about 3 seconds

shutdown : Close the machine for about 3 seconds

pairing : Automatic pairing state of open machine

Answer / hang up : Press the short switch to answer the phone and hang up the phone again.

### **sounds**

Opening prompt : Sound effect

Pairing success : Sound effect

Low electricity hint : Sound effect

Shutdown prompting : Sound effect

### **Connect the cell phone steps**

1. please keep the distance between Bluetooth stereo and mobile phone (or other connecting devices) in the range of 10 meters, and try to approach it as far as possible.

## Product illustration

1. Out of sound hole
2. fuselage key (down press on / off, answer / hang up)
3. USB Charging interface
4. Antiskid pads

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ -Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
