Subject : Professional Installation

FCC ID:2AP5OLFME84

To Whom It May Concern,

We hereby declare that the device with the above referenced FCC ID is subject to professional installation and complies with the applicable requirements as defined in KDB353028 D01 Antennas Part 15 Transmitters.

The device will be certified with a ferrite-antenna HRF.A.LFX.SM.SS.20 and marketed exclusively for use in industrial environments as documented in the FCC filing. Hermos AG has full control over the marketing as it can only be purchased directly from them, so they know each individual customer. Especially the proper set up with countless of different selection features requires skilled technical competence and understanding of the system. Hermos either offers dedicated installation training sessions or the device will be alternatively installed by their own staff.

If you have any questions, please feel free to contact me.

Yours sincerely,

Katja Frankl
Authorized Agent
