

### Important Product Information

#### Safety Information

 FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY OR DAMAGE.

Your device should be located horizontally and positioned upright in a way that provides proper ventilation. For example, do not cover the apparatus with items such as newspapers, tablecloths, or curtains and do not use this equipment on soft support such as bedding, blankets, etc. Allow ventilation space of at least 10 cm (4 in) on the top, side, and back of device. Do not place your device in an enclosed cabinet space.

The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

#### Caution

 To reduce the risk of fire or electric shock, do not open this device or expose this apparatus to rain or moisture. If your device gets wet, information for care instructions can be found in the App in Help & Feedback > Legal & Compliance.

 High sound pressure. AVOID PROLONGED LISTENING AT HIGH VOLUME. Prolonged listening of the player at high volume can damage the ear of the user. To prevent possible hearing damage, users should not listen at high volume levels for long periods.

Use speakers with an impedance of 8 ohms. Before connecting your device to any speaker or other audio device via cable, disconnect the power cables from wall outlets for your device and such other devices.

The speaker has polarity (+/-). Connect the speaker cables correctly between the positive (+) terminal of the unit and the positive (+) terminal of the speaker, and also between the negative (-) terminal of the unit and the negative (-) terminal of the speaker.

Improper connecting of the speaker cables may cause a short circuit and also damage the unit or the speakers. If you choose to use bare wires, twist the bare wires of the speaker cables firmly together. Do not let the core wires of the speaker cable touch one another or come into contact with your device's metal parts.

Your device does not have an on/off button. If you wish to stop power from flowing into your device, unplug the power cord.

Use your device in a location where temperatures remain within its operating temperature range set forth in this guide. Do not expose your device to extreme heat or cold. Condensation inside your device may result in a risk of electric shock, other injury, or property damage. To avoid condensation inside the device, do not expose the device to sudden temperature changes from cold to hot

or locate this device in an environment with high humidity. If condensation forms, disconnect the power cord from the outlet, then leave this device alone.

Additional safety, compliance, recycling and other important information regarding your device can be found in the App in Help & Feedback > Legal & Compliance.

For safety, compliance and other information regarding any speaker or headphones connected to your device, please consult the user manual and other information provided by the manufacturer.

#### Terms & Policies

Before using your device, please read all applicable terms, rules, policies and usage provisions found in the App in Help & Feedback > Legal & Compliance and available at [www.\\_\\_\\_\\_.com/devicesupport](http://www.____.com/devicesupport) (collectively, the "Agreements").

By using your device, you agree to be bound by the Agreements.

#### Limited Warranty

Your device is covered by a Limited Warranty, detailed in the App in Help & Feedback > Legal & Compliance and at [www.\\_\\_\\_\\_.com/devicesupport](http://www.____.com/devicesupport).

#### Product Specifications

Model Number: K9Y29E

Electrical Rating:

Input: 100-240V~, 275W, 50-60Hz

Speaker Output: 120W RMS (2x60W continuous average power into 8 ohms, THD+N<0.02%)

Amplifier: Class D

Temperature Rating: 0-35°C

#### Additional Information

You can find the Terms of Use, Limited Warranty, instructions for using the Device, Customer Service contact information, and other applicable terms and Device information at [www.\\_\\_\\_\\_.com/devicesupport](http://www.____.com/devicesupport).

#### FCC Compliance

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

## Getting started with your device

### 1. Connect your device

Connect one of the outputs (RCA/coax/optical) of your device to the corresponding input on your speakers or audio amplifier. Make sure the correct input is selected on your amplifier and/or speakers and the volume is not turned off.

## 2. Plug in your device

Plug the power cord into your device and then into a power outlet. The LED on the Action button will light up, letting you know that your device is ready for setup in the App.

You must use the power cord included in your original device package for optimal performance.

## 3. Download the App

Download the latest version of the App from the app store.

After you open the App, if you are not prompted to set up your device, tap the Devices icon in the lower right of the App to get started.

To learn more about your device, go to Help & Feedback in the App.

If you plan to use an Ethernet connection for your device, please complete setup using Wi-Fi and then you can change your network Settings in the app.
