

Important Product Information

Safety Information

 FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY OR DAMAGE.

Your device should be located horizontally and positioned upright in a way that provides proper ventilation. For example, do not cover the apparatus with items such as newspapers, tablecloths, or curtains and do not use this equipment on soft support such as bedding, blankets, etc. Allow ventilation space of at least 10 cm (4 in) on the top, side, and back of device. Do not place your device in an enclosed cabinet space.

The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

Caution

 To reduce the risk of fire or electric shock, do not open this device or expose this apparatus to rain or moisture. If your device gets wet, information for care instructions can be found in the App in Help & Feedback > Legal & Compliance.

High sound pressure. AVOID PROLONGED LISTENING AT HIGH VOLUME. Prolonged listening of the player at high volume can damage the ear of the user. To prevent possible hearing damage, users should not listen at high volume levels for long periods.

Before connecting your device to any speaker, subwoofer, or other audio device, disconnect the power cables from wall outlets for your device and such other device.

Your device does not have an on/off button. If you wish to stop power from flowing into your device, unplug the power adapter.

Use your device in a location where temperatures remain within its operating temperature range set forth in this guide. Do not expose your device to extreme heat or cold.

Additional safety, compliance, recycling and other important information regarding your device can be found in the App in Help & Feedback > Legal & Compliance.

For safety, compliance and other information regarding any speaker or headphones connected to your device, please consult the user manual and other information provided by the manufacturer.

Terms & Policies

Before using it, please read all applicable terms, rules, policies and usage provisions found in the App in Help and Feedback > Legal & Compliance and available at www._____.com/devicesupport (collectively, the "Agreements").

By using your device, you agree to be bound by the Agreements.

Limited Warranty

Your device is covered by a Limited Warranty, detailed in the App in Help & Feedback > Legal & Compliance and at www._____.com/devicesupport.

Product Specifications

Model Number: SXP16E
Electrical Rating: 15V = 21W
Temperature Rating: 0-35°C

Additional Information You can find the Terms of Use, Limited Warranty, instructions for using your device, Customer Service contact information, and other applicable terms and Device information at www._____.com/devicesupport.

FCC Compliance

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

Getting to know your Device

1. Connect your device

Use the appropriate outputs (RCA +subwoofer/coaxial/optical) on the back of your device to connect your stereo receiver, amplifier, or powered speakers/subwoofer. To use the connected component, make sure the correct input is selected on your receiver or amplifier. If connecting powered speakers, make sure they are powered on and the volume is turned up.

2. Plug in your device

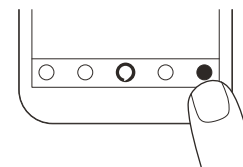

Plug the power adapter into your device and then into a power outlet. The LED on the Action button will light up, letting you know that your device is ready for setup in the App.

You must use the power adapter included in your original device package for optimal performance.

3. Download the App

Download the latest version of the App from the app store.

After you open the App, if you are not prompted to set up your device, tap the Devices icon in the lower right of the App to get started.

To learn more about your device, go to Help & Feedback in the App.

If you plan to use an Ethernet connection for your device, please complete setup using Wi-Fi, then plug in an Ethernet cable to establish an Ethernet connection.

Optional: Connect Another Audio Component

Use the inputs on the back of your device to connect an audio component, such as a CD player, MP3 player, or amplified turntable. Use the input format (analog line in/digital optical/digital coaxial) that matches the outputs on your audio component. Your device supports audio input from only one component at a time.
