

## User Guide

# Quick Start Guide

### WHAT'S IN THE BOX

- Device
- Power adapter
- USB Cable

### CONNECTING DEVICE

1. To turn on your Device, press and release the power button. To put it in sleep mode, press and release the power button.
2. To turn off your Device, press and hold the power button until a message displays asking if you want to shut down.
3. Your Device will be partially charged when you receive it. To charge your Device, connect one end of the USB cable into your and the other end into the power supply (included).
4. Connect the power supply into a nearby power outlet.

### CONNECTING DEVICE TO YOUR HOME NETWORK

Tap the Quick Settings icon located on the Status bar to display settings for the most commonly performed tasks

Select Wireless Network to toggle wireless on or off, display a list of detected Wi-Fi networks, add a network, and access advanced wireless settings.

### REGISTERING YOUR DEVICE

To use many of the Device features, you must register it to your account. If you have not yet registered, please do so now. Prior to registering, connect to a Wi-Fi network by tapping the Quick Settings icon at the top of the Device, then Wi-Fi. Select the network you want to use. Once you are connected, tap the Quick Settings icon, then More, and select the My Account option to register.

### IMPORTANT PRODUCT INFORMATION

For safety, compliance, recycling, and other important information regarding your Device, please refer to the Legal & Compliance section on the Settings menu of your Device.

# Product Information

## Safety and Compliance Information

### Using Your Device Around Other Electronic Devices

The Device, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices.

While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

There are some places where RF signals could constitute a hazard, such as health care facilities, and construction sites. If you are not sure, look around for signs indicating that two-way radios or mobile phones should be turned off.

## FCC Compliance Information

### Radio Frequency Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications that are not expressly approved by the party responsible for compliance could make the device no longer comply with the FCC Rules.

Information on your device is on file with the FCC and can be found by inputting your device's FCC ID,

which can be found on the back of Device, into the FCC ID Search form available at [transition.fcc.gov/oet/ea/fccid](http://transition.fcc.gov/oet/ea/fccid).

## Information Regarding Exposure to Radio Frequency Energy

The output power of the radio technology used in the Device is below the radio frequency exposure limits set by the FCC. Nevertheless, it is advised to use the Device in such a manner that minimizes the potential for human contact during normal operations.

## Canadian Compliance Information

This device complies with the Canadian ICES-003 Class B specifications. CAN ICES-3(B)/ NMB-3(B)

This device complies with Industry Canada license exempt RSS standard(s). Operation is subject to the following two conditions:

1. this device may not cause interference; and
2. this device must accept any interference, including interference that may cause undesired operation of the device.

This device is compliant with general population/uncontrolled RF exposure limits in IC RSS-102.

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Innovation, Science and Economic Development Canada for an uncontrolled environment.

Cet appareil numérique de la Classe B est conforme à la norme NMB-003 du Canada. CAN ICES-3(B)/ NMB-3(B)

Cet appareil numérique de la Classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

Cet appareil est conforme aux normes CNR exemptes de licence d'Industrie Canada. Le fonctionnement est soumis aux deux conditions suivantes :

1. cet appareil ne doit pas provoquer d'interférences et
2. cet appareil doit accepter toute interférence, y compris celles susceptibles de provoquer un fonctionnement non souhaité de l'appareil.

Cet appareil est concilient avec les limites d'exposition de RF population/non contenu générales dans IC RSS-102.

This device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

## Recycling Product Properly

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle the Products in accordance with your local laws and regulations.

## Product Specifications

Model #: M8S26G

Ports: Micro-USB, Audio port

Power — 5.2 V<sup>DC</sup>, 1.8 A max

Connectivity — Dual Band Wi-Fi (2.4/5 GHz); 802.11 a/b/g/n; BT 3.0, BT 4.2LE

Operating temperature — 0 °C to 35 °C
