> FCC information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of more of the following measure:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm from your body.

> Warranty information

> Bluetooth function

>> External Bluetooth devices can be connected to the mini sound bar via Bluetooth connection.

1. Press the M (Mode) button on the sound bar to enter the Bluetooth mode. The blue light keeps flashing fast after the tone is heard.
2. Activate the Bluetooth function of the external device and search for Bluetooth devices.
3. Select Sine Audio from the Bluetooth device list.
4. Follow the instructions shown on your device's screen.
5. Play music from Bluetooth device.

>> Disconnecting the Bluetooth device:

- Press M (Mode) button on the sound bar to enter other mode.
- Disconnect using your Bluetooth device. The sound bar starts searching for another Bluetooth device.
- Long press the M (Mode) button on the sound bar about 2 seconds to disconnect the current Bluetooth device. Long press about 2 seconds again to reconnect the current Bluetooth device.

Notes:

- If you cannot pair your Bluetooth device, you may need to remove the sound bar from the pairing list, and try pairing again.
- Bluetooth works best within a range of up to 33 feet (10 meters).
- The music streaming may be interrupted by obstacles between the Bluetooth device and sound bar, such as walls, metallic casing that covers the device, or other devices nearby that operate in the same frequency.
- If the connected device goes out of Bluetooth range, the system will reconnect automatically when the device comes back within range.

> Troubleshooting

1. No power or no sound

- Long press the power button to turn on the sound bar.
- Battery is low power, please charge in time, and check the USB cable (charging cable) is properly connected to the USB Port.
- Short press the power button to Play music or restore sound.
- Ensure that the source device has correct volume settings and is playing a track.

2. Poor audio quality

- Try with different source devices.
- Bring the Bluetooth device closer to the sound bar and make sure that no obstacles are disturbing the connection.
- Ensure that the cables connected to the source devices are correctly plugged in and the plugs are fully inserted.
- Reduce the volume of your source device.

3. Bluetooth device cannot be connect to the sound bar

- Bring the Bluetooth device closer to the sound bar.
- Switch off your device and / or sound bar, then back on, repeat the pairing process.
- Make sure the sound bar is not connected another Bluetooth device.
- Make sure that you have selected Sine Audio from the Bluetooth device list on your device.
- Ensure you are using the correct device.

4. If the device is still not connected, try the following:

- Remove the sound bar (Sine Audio) from the list of "paired devices" on your phone / tablet.
- Turn the sound bar off and then on again.
- Pair it again with your phone/tablet. It should now successfully establish the pairing.
