

Request for Class II Permissive Change

FCC ID: 2APAKBE1240

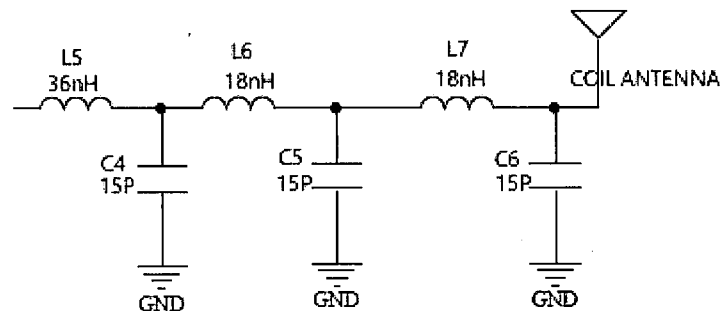

Date: 2019.02.12

Please be notified that we, the undersigned, Bellman & Symfon AB..declare that the reasons for this Class II permissive change are as below:

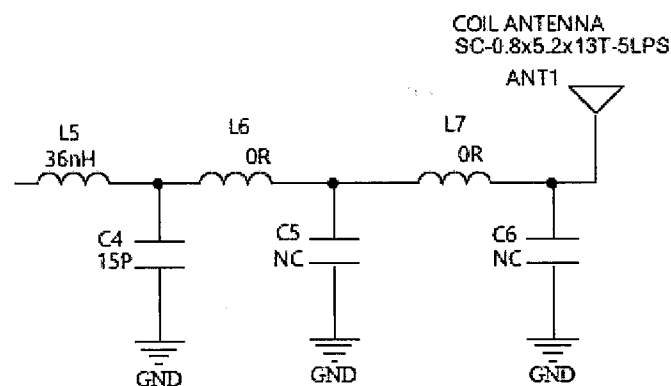

Optimize the antenna matching circuit:

- Remove 2 capacitors C5, C6, and replace L6, L7 by 0 ohms resistors.

Original schematics:

New schematics:

- Note: The change will be made only on those units produced after the change is authorized. The PCB layout does not change in this optimization. There is not any other change but only 4 components. C5 and C6 are just removed and keep the components locations "blank", L6 and L7 are simply replaced by 0 ohms resistors.

Bellman & Symfon AB
Sodra Langebergsgatan 30, 436 32 ASKIM, Sweden

Remark:

The date of original grant is 2018.10.26.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Vicky'.
