

HALO HOME
SMART LED FLOODLIGHT
Simple. Secure.

1. Install the Smart LED Floodlight in your desired location. See enclosed instructions (EN/ES).
1. Light starts on and then dims down to 5% or 2000K to reduce being visible. It then returns to its scheduled power cycle.
2. Light starts on and then dims down to 5% or 2000K to reduce being visible. It then returns to its scheduled power cycle.
3. Light starts on and then dims down to 5% or 2000K to reduce being visible. It then returns to its scheduled power cycle.
4. Light starts on and then dims down to 5% or 2000K to reduce being visible. It then returns to its scheduled power cycle.

2. Download the Halo Home app to your smart mobile device.

3. Create a user account and validate the email

- Enter email address in your user account screen.
- Select a password of at least 8 characters from the available "strong" screen.

4. Press "X" on the Halo Home App screen to add the floodlight

- To add one Halo Home Floodlight, go to the "Add Device" screen.
- To add multiple Halo Home Floodlights, go to the "Add Multiple Devices" screen.
- To add multiple Halo Home Floodlights, go to the "Add Multiple Devices" screen.
- To add multiple Halo Home Floodlights, go to the "Add Multiple Devices" screen.

5. Select "Done" to save the floodlight

- To save the floodlight, select "Done" in the top right corner of the screen.
- To save the floodlight, select "Done" in the top right corner of the screen.
- To save the floodlight, select "Done" in the top right corner of the screen.
- To save the floodlight, select "Done" in the top right corner of the screen.

Settings for a schedule

1. Tap the "Schedule" icon in the top right corner of the screen.
2. Tap the "Schedule" icon in the top right corner of the screen.
3. Tap the "Schedule" icon in the top right corner of the screen.
4. Tap the "Schedule" icon in the top right corner of the screen.
5. Tap the "Schedule" icon in the top right corner of the screen.
6. Tap the "Schedule" icon in the top right corner of the screen.

Reset to Factory Setting

- Tap the "Reset" icon in the top right corner of the screen.
- Tap the "Reset" icon in the top right corner of the screen.
- Tap the "Reset" icon in the top right corner of the screen.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

- English: "

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device."

- French:"

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil n' doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to IC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

IC Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
