

Infrared Sensor Wireless Charge Holder USER MANUAL

Please read the instructions carefully before using.

What is included:

Infrared sensor wireless charger holder X 1

Air vent mount X 1

QC3.0 car charger X 1

USB cable X 1

Parameters:

★ Infrared Sensor Wireless Charger Holder

★ Air vent mount

Suit different thickness of car air vent blades

Features:

- Car holder with wireless charging function, charges your phone conveniently when driving
- Advanced infrared sensor system. Hold your phone automatically
- Clamp arms opens after touching touch sensitive switch in side edge
- Compliant with 5W/7.5W/10W charging power, Qi standard
- Full 360 degrees rotation for perfect viewing angle
- Start charging asap as the phone contact with the holder, no need cable anymore
- QC 3.0 USB car charger included so you can start charging readily, with over temperature, over current, over voltage multi-safety protection

Compatible devices:

- Work well with: iP XS Max / NOTE 8 / 9 / iP XR / 8P / iP XS / iP X / S8 / S9 / iP 8
- Also work with all other Qi enabled devices
- Qi disabled devices with wireless receiver or wireless charging case
(Require receiver compliant with WPC Qi standard to match)

Product specification:

Wireless holder			
Input voltage	DC 5V/9V	Input current	2A
Output power	5W/7.5/10W	Frequency	110-205KHZ
QC 3.0 car charger			
Input voltage	DC 12-24V		
Output Current/voltage 1	5V=3A, 9V=2A, 12V=1.5A		
Output Current/voltage 2	5V=2.4A		

LED Mode:

- Power-on: Red, blue, red blue light turn on by turns for once, then off
- Standby Mode: Light off
- Charging: Red light keeps on, remove the receiver light off and boot into standby mode
- Take your device away when charging, light off and boot into standby mode
- When APPLE phone get fully charged, red light keeps on
When SAMSUNG phone get fully charged, blue light keeps on
- FOD warning: Red light keeps flashing

Attentions:

- Please use the product correctly according instructions
- Please do not disassemble the product or throw it to fire and water, to avoid leakage caused by electrical short circuit
- Please do not use wireless charger in high temperature, wet, corrosive environment, to avoid leakage from caused by damaged circuit
- Please do not put wireless charger close to cards with magnetic stripes or chips (ID card, credit card etc.) to avoid demagnetization
- Please keep wireless charger at least 20 CM distance away from implantable medical device (heart pacemaker, Implantable cochlea etc.) to avoid potential interferences
- Please do safekeeping, do not let your kids treat wireless charger as toy to avoid unwanted accidents

The pictures only supplies the reference, please take the actual product as the standard

Installation:

1. Insert the ball into the socket at the back of bracket and tighten

2. Insert the mount directly into the car air vent blade

3. Intervene USB cable with your car charger
Note: connect to power Qi charger can speed up charging speed

Installation:

4. Connect the other end to green (fast charge) port of car charger, insert the charger to car cigar lighter

5. The clips will open automatically when the phone is near 2-3 inches from the infrared sensor

6. Then close in 1 second automatically and hold your phone tightly and start to charge

Installation:

7. The clips will open automatically when you touch the touch sensitive switch in side edge, take your phone away

8. Then close in 1 second automatically

FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
FCC RF exposure statement:
The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment.
This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Infrared Sensor Wireless Charge Holder USER MANUAL

Please read the instructions carefully before using.

What is included:

Infrared sensor wireless charger holder X 1

Air vent mount X 1

QC3.0 car charger X 1

USB cable X 1

Parameters:

★ Infrared Sensor Wireless Charger Holder

★ Air vent mount

Direction I applies to 2.5-3.5 mm air vent.
Direction II applies to 1.5-2.5 mm air vent:

Features:

- Car holder with wireless charging function, charges your phone conveniently when driving
- Advanced infrared sensor system. Hold your phone automatically
- Clamp arms opens after touching touch sensitive switch in side edge
- Compliant with 5W/7.5W/10W charging power, Qi standard
- Full 360 degrees rotation for perfect viewing angle
