### 2048 game

2048 game has a total of 16 squares, the initial number is composed of 2 or 4.

1. Fingers slide in one direction, and all grids move in that direction.
2. When two grids with the same number collide, the numbers will be added.
3. Each time you slide, a number of squares will be randomly refreshed in the blank.
4. When the interface is motionless (when the interface is full of numbers), the game ends; when the maximum number in the interface is 2048, the game wins.

## Getting to Know Your Device

### 1. Using in Wet Conditions

Your device is water-resistant, which means it is rain-proof and splash-proof and can stand up to even the sweatiest workout.

NOTE: Do not swim with your Smart Bracelet. We also don't recommend showering with your wristband; though the water won't hurt the device, wearing it 24/7 does not give your skin a chance to breathe. Whenever you get your bracelet wet, dry it thoroughly before putting it back on.

### 2. Using Quick View

With Quick View you can check the time or the message from your phone on your Smart Bracelet without tapping. Just turn your wrist towards you and the time screen will appear for a few seconds.

## General Info & Specifications

### 1. Environmental Conditions

Operating temperature: 14°F to 122°F (-10°C to 50°C)

Non-operating temperature: -4°F to 140°F (-20°C to 60°C)

### 2. Size

Fits a wrist between 5.5 and 7.7 inches in circumference.

### 3. Disposal and Recycling

Please kindly be aware that it is the consumer's responsibility to properly dispose and recycle Smart Bracelet and accompanying components. Do not dispose of Smart Bracelet with common household waste, the Smart Bracelet unit is considered electronic waste and should be disposed of at your local electronic equipment collection facility.

For more information, please contact your local electronic equipment waste management authority or the retailer where you bought the product.

#### FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
