

DE

Danke, dass Sie sich für ESR entschieden haben!

❶ Nach dem Verbinden mit der Stromquelle leuchtet die LED-Anzeige für 5 Sekunden auf.

Für ein noch effizienteres Aufladen, benutzen Sie bitte einen QC 2.0 oder QC 3.0 Stromadapter.

❷ Nachdem Sie Ihr Handy auf das Ladepad gelegt haben, fängt die LED-Anzeige zu pulsieren und das Laden beginnt.

• Damit Sie ungestört bleiben, pulst die LED-Anzeige nur 60 Sekunden. Danach schaltet sich die Anzeige ab und Ihr Gerät lädt weiter.

• Wenn während des Ladeprozesses irgendein Problem auftritt, beginnt die LED-Anzeige schnell zu blinken.

Specifications

Modell: ECW5-1
Eingang: DC 5V/2A, DC 9V/1.7A
Ausgang: DC 5V/1-1.5A, DC 9V/1.1A
Strom: 5W/7.5W/10W (MAX)
Nutzungsgrad: 70%-80%
Nettogewicht: 101.5 g
Abmessungen: 99.4mm x 99.4mm x 8.6mm

Wichtige Sicherheitshinweise

- Für ein noch effizienteres Aufladen, benutzen Sie bitte einen QC 2.0 oder QC 3.0 Stromadapter.
- Bitte legen Sie keine metallischen Objekte oder Magnetkarten auf das Ladepad, da dies das Ladegerät beeinträchtigen oder sogar beschädigen kann.
- Wenn das Ladegerät während der Nutzung überhitzt und herunterfährt, entfernen Sie bitte Ihr Handy und lassen Sie das Ladegerät abkühlen, bevor Sie versuchen, Ihr Handy erneut aufzuladen.
- Stellen Sie sicher, dass Ihre Handyhülle nicht dicker als 5mm ist, da dies den Ladeprozess beeinträchtigen kann.
- Stellen Sie sicher, dass während des Ladens das Handy in der Mitte der Ladepads liegt.
- Bitte halten Sie das ECW5-1 fern von Wasser und anderen Flüssigkeiten.

Sicherheitswarnung

- Ziehen Sie nicht ruckartig am Netzkabel, da dies Ihr Netzkabel beschädigen kann.
- Bauen Sie das ECW5-1 nicht auseinander oder legen Sie es nicht ins Feuer oder Wasser, da dies einen elektrischen Schock verursachen kann.
- Benutzen Sie den ECW5-1 nicht in feuchten, ätzenden oder sehr heißen Umgebungen, da dies die Schaltkreise beschädigen oder elektrische Schocks verursachen kann.

IT

Grazie per aver scelto ESR!

❶ Dopo esser stata collegato ad una fonte di alimentazione, la spia si accenderà per 5 secondi.

Per una ricarica più efficiente, utilizzare un adattatore di corrente QC 2.0 o QC 3.0.

❷ Dopo aver posizionato il telefono sul pad di ricarica, l'indicatore luminoso si accenderà e inizierà la ricarica.

• Per evitare di disturbarla, la spia luminosa rimarrà accesa solo per 60 secondi, dopodiché la luce si spegnerà ma il caricatore continuerà ad funzionare.

• Se dovessero esserci problemi durante il processo di ricarica la spia luminosa lampeggerà rapidamente.

Specifications

Modello: ECW5-1
Input: DC 5V/2A, DC 9V/1.7A
Output: DC 5V/1-1.5A, DC 9V/1.1A
Power: 5W/7.5W/10W (MAX)
Conversion Rate: 70%-80%
Peso netto: 101.5 g
Dimensioni: 99.4mm x 99.4mm x 8.6mm

INFORMAZIONI IMPORTANTI

- Per una ricarica più efficiente, utilizzare un adattatore di corrente QC 2.0 o QC 3.0.
- Si prega di non posizionare oggetti metallici o carte magnetiche sul pad di ricarica perché potrebbero danneggiare il caricabatterie o interferire con esso.
- Se durante l'uso il caricabatterie dovesse surriscaldarsi e spegnersi, rimuovere il telefono e attendere che il caricatore wireless si raffreddi prima di riposizionare il telefono.
- Assicursi che la cover del telefono non sia più spessa di 5mm per evitare di interferire con il processo di ricarica.
- Assicursi di posizionare il telefono al centro del pad di ricarica.
- Tenere l'ECW5-1 lontano da acqua e altri liquidi.

AVVISO DI SICUREZZA

- Non tirare con forza il cavo di alimentazione perché potrebbe rovinarsi.
- Non smontare ECW5-1 né metterlo nel fuoco o in acqua perché potrebbero generarsi scosse elettriche.
- Non utilizzare ECW5-1 in ambienti umidi, corrosivi o ad alte temperature, in quanto i circuiti potrebbero danneggiarsi o provocare scosse elettriche.

ES

¡Gracias por elegir ESR!

❶ Después de estar conectado a una fuente de alimentación, la luz se encenderá durante 5 segundos.

Para una recarga más eficiente, use un adaptador de corriente QC 2.0 o QC 3.0.

❷ Después de colocar el teléfono en la plataforma de carga, la luz indicadora se encenderá y comenzará la carga.

• Para evitar disturbos, la luz indicadora permanecerá encendida solo durante 60 segundos, después de lo cual la luz se apagará pero el cargador continuará funcionando.

• Si se detecta algún problema durante el proceso de carga, la luz indicadora parpadeará rápidamente.

Specifications

Modelo: ECW5-1
Entrada: DC 5V/2A, DC 9V/1.7A
Salida: DC 5V/1-1.5A, DC 9V/1.1A
Potencia: 5W/7.5W/10W (MAX)
Conversion Rate: 70%-80%
Peso neto: 101.5 g
Dimensiones: 99.4mm x 99.4mm x 8.6mm

NOTICIAS IMPORTANTES

- Para una recarga más eficiente, use un adaptador de corriente QC 2.0 o QC 3.0.
- No coloque objetos metálicos ni tarjetas magnéticas en la plataforma de carga, ya que pueden dañar o interferir con el cargador.
- Si el cargador se sobrecalienta y se apaga durante el uso, retire el teléfono y espere a que el cargador inalámbrico se enfrie antes de volver a colocar el teléfono.
- Asegúrese de que la funda de su teléfono no sea más gruesa que 5 mm para evitar interferir con el proceso de carga.
- Asegúrese de colocar el teléfono en el centro de la plataforma de carga.
- Mantenga el ECW5-1 alejado del agua y otros líquidos.

AVISO DE SEGURIDAD

- No tire del cable de alimentación con firmeza, ya que podría dañarse.
- No desmonte el ECW5-1, ni lo ponga en el fuego o en el agua, ya que podría provocar una descarga eléctrica.
- No utilice el ECW5-1 en ambientes húmedos, corrosivos o de alta temperatura, ya que esto podría dañar los circuitos o provocar descargas eléctricas.

Specifications

FCC ID: 2APEW-ECW5

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Specifications

IC: 24790-ECW5

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1)l'appareil n' doit pas produire de brouillage, et
- (2)l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

Wireless Charger User Manual

EN

Thank you for choosing ESR!

❶ After connecting to a power source, the indicator light will turn on for 5 seconds.

For a more efficient charging experience, please use a QC 2.0 or QC 3.0 power adapter.

❷ After placing your phone on the charging pad, the indicator light will pulse and charging will begin.

• To avoid disturbing you, the indicator light will only pulse for 60 seconds, after which the light will turn off while charging continues.

• If any issue is detected during the charging process, the indicator light will flash quickly.

Specifications

Model: ECW5-1
Input: DC 5V/2A, DC 9V/1.7A
Output: DC 5V/1-1.5A, DC 9V/1.1A
Power: 5W/7.5W/10W (MAX)
Conversion Rate: 70%-80%
Net weight: 101.5 g
Dimensions: 99.4mm x 99.4mm x 8.6mm

IMPORTANT NOTICE

- For a more efficient charging experience, please use a QC 2.0 or QC 3.0 power adapter.
- Please do not place any metallic objects or magnet cards on the charging pad as they may damage or interfere with the charger.
- If during use, the charger overheats and shuts down, please remove your phone and allow the charger to cool before trying to charge your phone again.
- Please ensure that your phone's case is not thicker than 5mm to avoid interfering with the charging process.
- When charging, be sure to place your phone in the center of the charging pad.
- Please keep the ECW5-1 away from water and other liquids.

SAFETY NOTICE

- Do not pull roughly on the power cord; doing so may damage the power cord.
- Do not disassemble the ECW5-1 or put it into fire or water as this may cause electrical shock.
- Do not use the ECW5-1 in damp, corrosive, or high-temperature environments, as this may damage the circuits or cause electrical shock.

- Do not use the ECW5-1 in damp, corrosive, or high-temperature environments, as this may damage the circuits or cause electrical shock.

Specifications

Model: ECW5-1
Input: DC 5V/2A, DC 9V/1.7A
Output: DC 5V/1-1.5A, DC 9V/1.1A
Power: 5W/7.5W/10W (MAX)
Conversion Rate: 70%-80%
Net weight: 101.5 g
Dimensions: 99.4mm x 99.4mm x 8.6mm

IMPORTANT NOTICE

- For a more efficient charging experience, please use a QC 2.0 or QC 3.0 power adapter.
- Please do not place any metallic objects or magnet cards on the charging pad as they may damage or interfere with the charger.
- If during use, the charger overheats and shuts down, please remove your phone and allow the charger to cool before trying to charge your phone again.
- Please ensure that your phone's case is not thicker than 5mm to avoid interfering with the charging process.
- When charging, be sure to place your phone in the center of the charging pad.
- Please keep the ECW5-1 away from water and other liquids.

SAFETY NOTICE

- Do not pull roughly on the power cord; doing so may damage the power cord.
- Do not disassemble the ECW5-1 or put it into fire or water as this may cause electrical shock.
- Do not use the ECW5-1 in damp, corrosive, or high-temperature environments, as this may damage the circuits or cause electrical shock.
