Dear Examiner,

The products listed in FCC ID are the following:

- R20 Radar
- R20 DAN-C Radar

The R20 and R20 DAN-C are identical in hardware. The only differences between these two radars is the UI. The R20 radar has the ability to report target tracking to the end user, whereas the R20 DAN-C radar does not have this ability.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

Name: Jeffery Davis
