Qi Charger Contents

- Qi Compatible Wireless Fast Charger
- USB Charging Cable (included)

Specification

- Item No: VODESSWIRCBK
- Model: LC-12
- Input: DC 5V/2A, 9V/1.67A
- Output: DC 5V/1A, 9V/1.1A
- Frequency: 115 kHz – 205 kHz
- RF Field Output: 10 Watts
- 1 Coil
- Charging Efficiency: < 75%
- Charging Distance: 8 mm

Charging your device

1.1, Insert the Micro USB cable (included) into the Wireless Charger. The indicator light will appear green, then blue, then switch off. Wait one second for a solid green light, indicating the charger is now ready to use.

2. Place your mobile device onto the wireless charger until the indicator light appears blue. Your device is now charging.

3. Disconnect the Wireless Charger once your device is fully charged.

Caution

Do not attempt to repair or disassemble the Wireless Charger. Any signs of wear and tear please discard immediately. Do not use if connections are loose. Do not use the Wireless Charger in humid, dusty or high temperature environments. Do not place the Wireless Charger near magnets. Wipe clean with a damp cloth only. Do not use detergents.

Federal Communications Commission (FCC) Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
