Product Illustration Back:

- A** Non-Slip Gripping Pads
- B** Air Vent
- C** Magnetic Stand Holder
- D** USB Type C Input

Stand Assembly and Set Up:

- (1) Remove metal stand plate from back of charger.
- (2) Insert metal stand plate through front slot on charger.
- (3) Plug USB Type C cable into the side of the charger, connect USB A into the AC charger and plug AC charger into wall outlet.
- (3) Set Qi-compatible device on charging pad.

Warning:

- (1) Do not crush, disassemble, puncture, expose to fire, or short external contacts.
- (2) Keep the charger dry at all times to prevent corrosion of electronic circuits.
- (3) Do not store the charger in dusty or dirty areas.
- (4) Do not expose the charger to hot or cold temperatures. Heat can warp/melt the components and shorten the life of the product, while cold can cause moisture to form inside the charger and damage the electronic circuit board.
- (5) Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the charger.
- (6) Do not drop, knock, or shake the charger. Rough handling may break the internal circuit board.
- (7) Do not modify or re-manufacture, attempt to insert foreign objects into the charger, or immerse or expose to water/liquids, fire, explosions, or other hazards.
- (8) Do not use wireless charger in hot, humid or corrosive environment to avoid circuit damage.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Shenzhen Cheng Hui Da Electronics Co.,Ltd may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
