EUT Housing and Board
View 1

Solder
Board-Component View
1

Solder Board-Component View 2	 A photograph of a black printed circuit board (PCB) with a grid of 48 gold-plated solder pins arranged in 4 rows and 12 columns. The board is positioned next to a black L-shaped ruler with white markings in millimeters. The top ruler shows 0 to 100 mm, and the side ruler shows 0 to 100 mm. The board is labeled "KT660LED48V01-20210906" in white text.
Solder Board-Component View 3	 A photograph of the same black PCB from a different angle, showing the underside. It features a large rectangular silver-colored metal pad, several gold-plated solder pins, and a small black component. The board is positioned next to a black L-shaped ruler with white markings in millimeters. The top ruler shows 0 to 100 mm, and the side ruler shows 0 to 100 mm.

Solder Board-Component View 4	 A photograph showing the solder side of a black printed circuit board (PCB). The board is populated with several large, rectangular, gold-colored components, likely heat spreaders or shielding. A small, square, silver component is visible on the left side. The board is placed on a blue textured surface, and a black ruler with white markings is positioned vertically to the left of the board for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 5	 A photograph showing the solder side of the same black PCB. This view reveals more of the underlying components, including a large, square, silver component in the center, a smaller square component on the left, and various electronic components like capacitors and resistors. The board is placed on a blue textured surface, and a black ruler with white markings is positioned vertically to the left of the board for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 6	 A photograph of a black printed circuit board (PCB) with various electronic components. A silver-colored metal component is visible at the top. The board is placed on a blue background with a black ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View	 A photograph of the antenna assembly. It consists of a black, rectangular antenna module with a circular lens in the center. A red box highlights the antenna module, and a red line points to it from a label "WCDMA/LTE Ant" in a red box. The antenna is placed on a blue background with a black ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
