

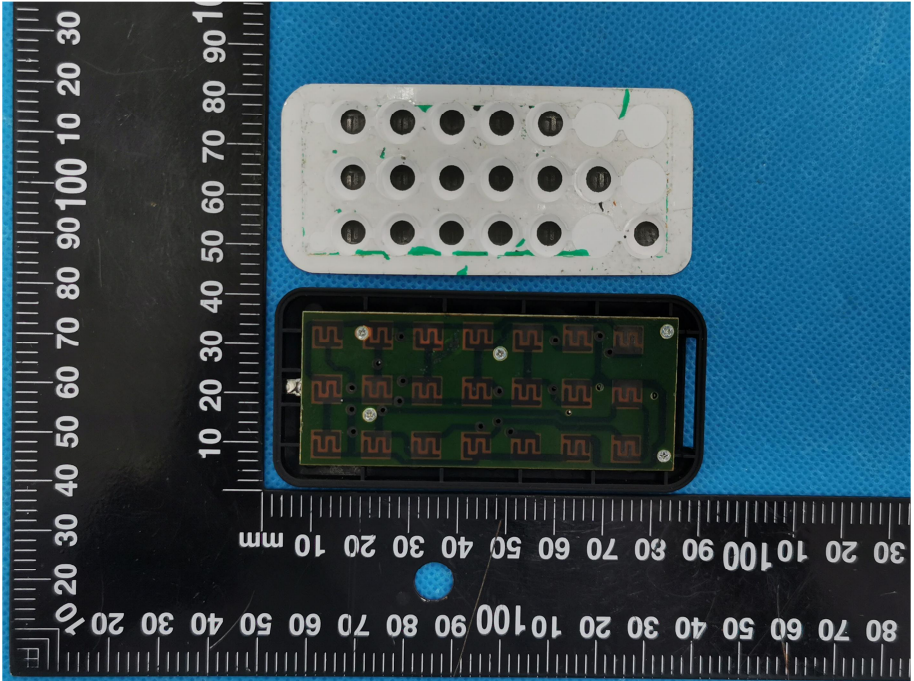

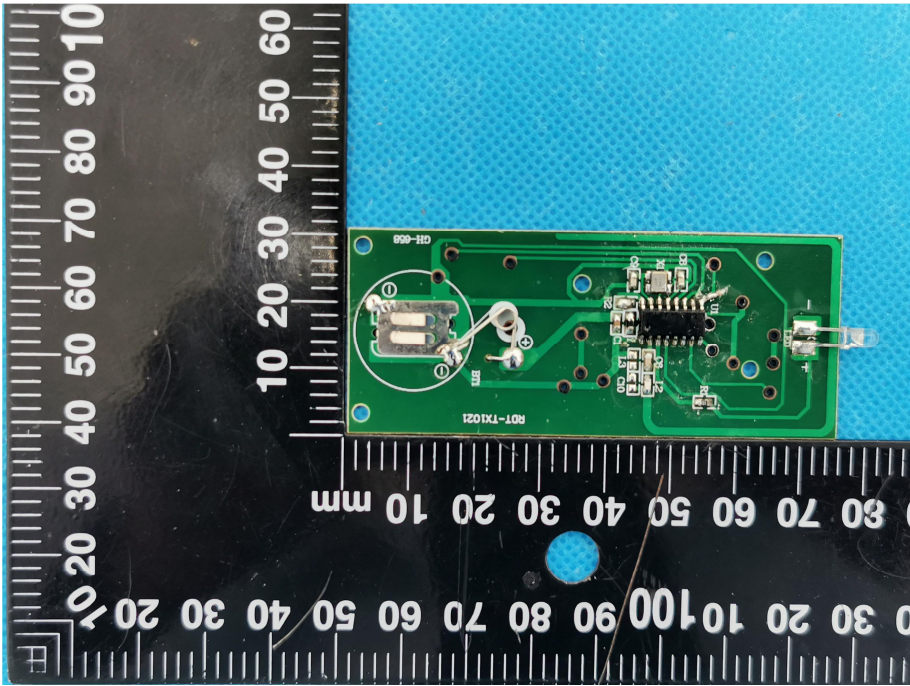

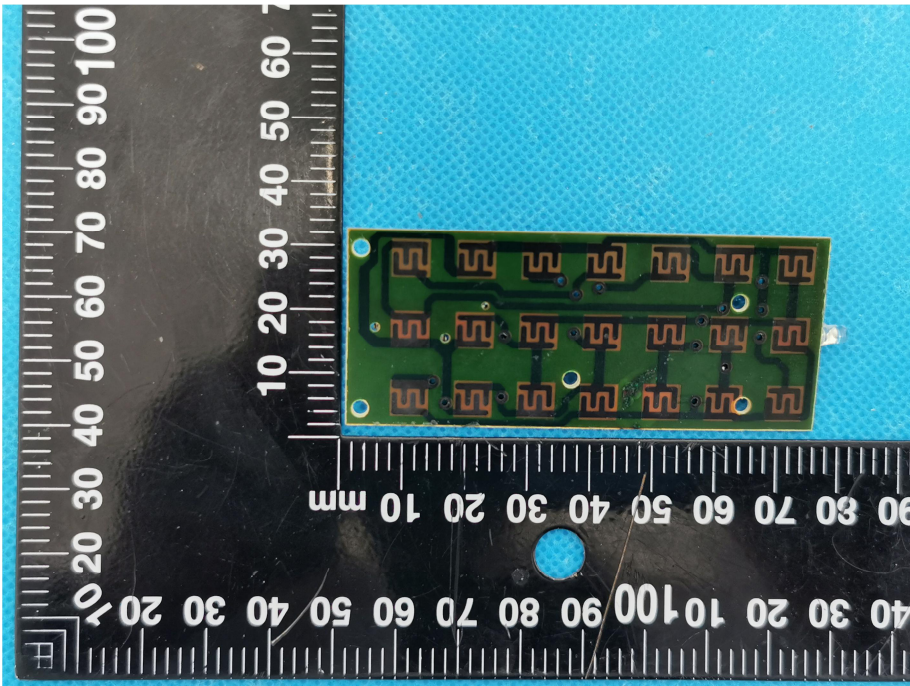

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	
<p>EUT Housing and Board View 2</p>	

<p style="text-align: center;">Solder Board-Component View 1</p>	 <p>A photograph of a green printed circuit board (PCB) with various electronic components. The board is placed on a black surface with a white ruler for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The board is oriented vertically. On the left side of the board, there are two circular components, possibly capacitors or inductors, with the number '1' written next to each. In the center, there is a multi-pin integrated circuit (IC) with several smaller components around it. On the right side, there is a component that looks like a diode or a small transistor. The board has some text printed on it, including 'ROT-TX1021' and 'DR-066'. The background is a blue textured surface.</p>
<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a green PCB, similar to the one in View 1, but with a different component layout. It is placed on the same black surface with a white ruler for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The board is oriented vertically. The layout consists of several rows of rectangular components, possibly capacitors or inductors, connected by traces. The board has some text printed on it, including 'ROT-TX1021' and 'DR-066'. The background is a blue textured surface.</p>
