

XENA SECURITY LIMITED

Date: 2018-05-14

Subject: authorization for adding family models

To whom it May concern,

Statement

The above models are the same electronic components and use the same Bluetooth module. For XX6, XX10, XX14, XX15 only the models name and the size of the physical structure of the lock are different. For XX6, XX10, XX14, XX15 and XZZ6L in addition to the different model names and the size of the physical structure of the lock, there are differences in component layout. XX15 and XZZ6L are the tested sample.

For the details see below table.				
product	model	electronic components	component layout	tested sample
DISC LOCK ALARM	XX6	identical	identical	No
DISC LOCK ALARM	XX10	identical	identical	No
