 - Connect the headset charging port.
 - When charging: Charging indicator is red.
 - Charging completed: Charging indicator is off.

Wired Function

In power-off state, put audio cable into the headphone jack at one end, and put the other end into the phone or other product's audio output port.

C. Headset parameters

- Bluetooth chip: CSR8635
- Bluetooth version: Bluetooth V4.1
- 2.4G Frequency: 2.400-2.480GHz;
- Frequency response: 20Hz-20KHz
- Support: HFP V1.6, HSP V1.2, A2DP V1.2, AVRCP V1.0, DUN V1.3
- Charging time: 3 H
- Music play time: 10 H
- Receive sensitivity: -80dB
- Working range: 10m

D. About Bluetooth Communication

- Bluetooth wireless technology operates within a range of approximately 10m and may vary depending on the obstacles (body, metal, wall, etc.) or the electromagnetic environment.
- Bluetooth communication may be interrupted, noise or audio loss may occur under the following conditions.
 - There is someone between the unit and the Bluetooth device.
 - There are obstacles such as metal or wall between the unit and the Bluetooth device.
 - There are devices working on 2.4GHz frequency near this unit, such as Wi-Fi devices, cordless phones, or microwaves.
- Because Bluetooth devices and Wi-Fi work on the same frequency (2.4GHz), microwave interference may occur if this unit is used near a Wi-Fi device, causing noise or audio loss or communication interruption. In this case, do as follows:
 - Use the unit at least 10m away from the Wi-Fi device.
 - If you use this unit within 10m from the Wi-Fi device, turn off the Wi-Fi device.
- Place the unit and Bluetooth device as close as possible to each other.
- The microwave emitted from the Bluetooth device may affect the operation of the mobile phone or other devices. In the long plane, please turn off this unit and other Bluetooth devices, or if they cause an accident.
- The place which stores flammable gases in a hospital or gas station.
 - Near automatic doors or fire alarm bell
 - Always use the 3.5mm jack cable when using this unit on airplane.

- Due to the nature of wireless technology, the sound played on this unit may not be synchronized with the images and sounds may not be synchronized when watching movies or playing games.

E. About Bluetooth Communication

- Do not turn on the unit and don't use Bluetooth.
- If the unit is not used for a long time, the rechargeable battery may not be able to retain enough power. After repeated charge and discharge several times, the battery will be able to maintain the appropriate power.
- If you stop the unit for an extended period of time, charge the battery every six months to prevent over-discharge.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance with the FCC rules may void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class 1B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide protection against harmful interference to other licensed operations. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to you or others, you are encouraged to try to correct the interference by one or more of the following measures: (a) Reorient or relocate the receiving antenna. (b) Increase the minimum distance between the radiator and your body. (c) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (d) Do not use the same circuit as the receiver.

For more information, contact your local government.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for uncontrolled environments. However, the actual exposure may vary. To reduce the potential for RF-EMF exposure, the user should not hold the device and should maintain a minimum distance of 15 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other transmitter or transmitter.

We assume no responsibility for any disclosure of information that may occur during the Bluetooth communication.

The connection to all Bluetooth devices can not be guaranteed.
