インストールが完了すると、タスクバーの右下隅に [REALTEK Client Management Software ┛] が表示され、インストールが成功したことが示されます。

### WiFi Adapter Mode

- Double-click "\*\* REALTEK USB Wireless LAN Utility.
- 2. Click on the upper menu "Available Network", select the wireless network SSID you want to connect to.

Doppelklick "&" REALTEK USB Wireless LAN Utility. Klicken Sie im oberen Menü auf "Available Network" (Verfügbares Netzwerk) und wählen Sie die SSID des drahtlosen Netzwerks aus, zu der Sie eine Verbindung herstellen möchten.

Haga doble dic " & " REALTEK USB Wireless LAN Utility. Haga clic en el menú superior "Available Network", seleccione el SSID de la red inalámbrica al que desea conectarse.

Doppio click " & " REALTEK USB Wireless LAN Utility. Fare clic sul menu superiore "Available Network", selezionare il SSID della rete wireless a cui si desidera connettersi.

Double-cliquez " REALTEK USB Wireless LAN Utility. Cliquez sur le menu supérieur "Available Network", sélectionnez le SSID du réseau sans fil auquel vous souhaitez vous connecter.

\*惑\* REALTEK USBワイヤレスLANユーティリティをダブルクリックします。上部のメニュー "Available Network"をクリックして、接続するワイヤレスネットワークSSIDを選択します。

## 3.Enter the network key, confirm the network key, click "**OK**" as shown below:

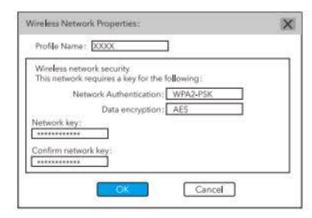

Geben Sie den Netzwerkschlüssel ein, bestätigen Sie den Netzwerkschlüssel, klicken Sie auf \*OK", wie unten gezeigt:

Ingrese la clave de red, confirme la clave de red, haga clic en "OK" como se muestra a continuación:

Immettere la chiave di rete, confermare la chiave di rete, fare clic su "OK" come mostrato di seguito:

Entrez la clé réseau, confirmez la clé réseau, cliquez sur "OK" comme indiqué ci-dessous:

ネットワークキーを入力し、ネットワークキーを確認して、以下に示すように "OK" をクリックします:

# 4.After the connection is successful, the signal strength and link quality are displayed, as shown below:

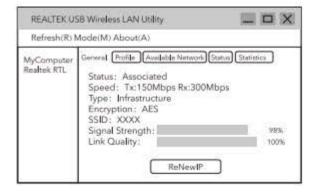

Nachdem die Verbindung hergestellt wurde, werden die Signalstärke und die Verbindungsqualität wie folgt angezeigt:

Una vez que la conexión es exitosa, se muestran la intensidad de la señal y la calidad del enlace, como se muestra a continuación:

Dopo che la connessione ha avuto esito positivo, vengono visualizzati la potenza del segnale e la qualità del collegamento, come mostrato di seguito:

Une fois la connexion établie, l'intensité du signal et la qualité de la liaison sont affichées, comme indiqué ci-dessous:

接続が成功すると、以下に示すように、信号強度とリンク品質が表示されます:

### FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- · Increase the separation between the equipment and receiver.
- · Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- · Consult the dealer or an experienced radio/TV technician for help.

#### Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
