Please note that the two contacts of the charging cable can not touch the conductive object at the same time, otherwise it will cause short circuit combustion.

How to connect the phone:

(1) IOS, Andriod System Phone users:

Through the phone browser to scan the back of the QR code　and select the first download.

Or sweep with a WeChat. When you open the interface, and then click the upper right option, select the mobile browser to open and download.

(2)Android Phone: download "Fundo" app from Google Play;

IOS phone: download "Fundo" app from App Store;

Open "Fundo" app and Bluetooth function from your phone after finish install, click "more" as below, then click "connect watch". And then point the upper right corner of the "search", search Smart Device and can be connected,
When the upper left corner of the watch has a Bluetooth logo, on behalf of the connection is successful.

●Firmware upgrade: At normal Bluetooth connection status, enter FunDo, click More on the bottom right corner, find the firmware upgrade item, click it. If there is a new version, you will be prompted to upgrade, click YES, there will be a progress bar afre you click YES, the upgrade process will take 3-5 minutes. The device will automatically boot and connect with smartphone after the upgrade is complete. Please disconnect the device, then connect again. Please note that if the progress bar is s

tuck, please do not do any thing, let the progress work slowly until it is complete.

Since there would be some difference of Bluetooth protocol for different smart phones, it may cause Bluetooth connection unstable sometimes. Turn off Bluetooth on the phone, then re-connect the and phone.

Main Features: (first to open the APP on the mobile phone and connect to, in order to achieve the following functions)

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
