Specifications:

Capacity: 5000mAh/3.85V

Input(USB-C): 5V/3A, 9V/2A, 12V/1.5A Output: total 22.5W

Output(USB-C): 5V/3A, 9V/2.22A, 12V/1.67A Wireless: 5W/7.5W/10W/15W Max USB-C+ Wireless: 5V/3A

Charging Your Device Using Your power bank:

LED display and button inside

IMPORTANT: Before using your power bank for the first time, fully charge it (when powered on, the LED displays 100%).

Connect the supplied USB-C cable (or the cable that came with your device) to the $\,$ power bank's USB port and to your device. Then begin charging.

During charging of your device, the percentage of battery's power will gradually decrease as your device receives power, when the power bank is low in power, the percentage will flash and go out automatically until all the power is used up.

The green charging icon in LED will light up once you enter fast charging mode.

Checking Your Power bank Battery's Charging Status

Momentarily press the power button (the LED screen is a button) on your power bank and the percentage of battery life remaining will appear on the LED display, 100% means that the power bank battery is fully charged, while 5% or under indicates that it's almost empty. Know before you go!

正面 (Front)

If you see the percentage is flashing, the battery status is less than 5%. Please recharge the power bank.

Recharging your power bank:

To recharge your power bank, use the supplied USB cable to connect its USB-C port to a USB wall charging adapter. While recharging the power bank, the last digit of the percentage will blink. If there is one digit flashing, the charging is not completed. Once the power bank is fully charged, the 100% is displayed.

The green charging icon in LED will light up once you enter fast charging mode.

NOTE: For best results, do not connect the power bank to a computer's USB port. We recommend using a wall charging adapter that supports fast charging protocols such as QC or PD.

Press and release the button, when the red LED remains illuminated, place your smartphone that supports wireless charging on the charger surface, the blue LED indicator will light up once the unit enters wireless charging mode. To stop the wireless charging function, press the button twice quickly or simply remove the smartphone.

If the smartphone that supports wireless charging is not detected within 30s, the unit will automatically turn off the wireless output It will automatically turn off if no load is detected within one minute.

This wireless charger can charge smartphones with non-metal protective case or silicone covers that are no thicker than 6mm.

FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply

with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna

Increase the separation between the equipment and receiver Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. Th device can be used in portable exposure condition without restriction.
