Wireless Mouse Pad Instruction Manual

Congratulations on your purchase of this wireless charging mouse pad. To ensure a long service life and optimal functionality of the product we recommend that you read this manual carefully.

Package Content

- 1 Wireless mouse pad
- 1 USB-A to USB-C Charging cable
- 1 User Manual

Specifications

Input: 5V/2A, 9V/2A
 Output: 5W/7.5W/10W/15W
 Charging distance: ≤6mm
 Wireless standard: Qi equivalent

Instructions

1. Insert the USB-A end of the USB charging cable into a power source as shown below.

Note:

- . For normal operation, no weaker than DC 5V, 2A charger is required.
- . For a fast wireless charging mode, use the Quick Charger or PD compatible charger and compatible smartphones.

2. Insert the other end of the USB charging cable into Type-c port of the wireless charger. The red LED indicator lights up to indicate good connectivity.

3. Put the wireless chargeable device on the mouse pad below the port to charge. When charging, the blue LED indicator always lights up, take off the charging device, the blue light goes out and the red indicator lights up.

Attention

1. Please keep the charger away from water or other liquid.
2. If you need to clean the charger, please make sure it power off.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
