

**CQL1703-B Bluetooth Speaker (water dancing pair speakers)
Instruction Manual (Read before proceeding)**

Power:

- **There are no lithium batteries inside the speakers. For power source, please plug in.**
- Using a **MINI** USB Charging Cable (included), insert the USB power cable into the **MINI** USB port located on the back of the main speaker. Connect the other end of the USB cord into a powered USB source such as a computer, laptop or USB AC adapter.
- When your Bluetooth speaker is charging, the LED lights (1RD, 2GRN, 2BL) will be on.
- **The units can be used as wired pair speakers. The main unit can be used separately connecting Bluetooth. The sub unit cannot be used separately.**

Playing Music via Bluetooth

- **There is no On Off switch of the speakers. Once the speaker is plugged in, the lights will turn on automatically and the Bluetooth function will be activated.**
- **There are no Bluetooth indicator or charging indicator for this model.**
- Search the pair named, "PBT628".
- Once you have selected the speaker, your device will pair without a password. (If your device prompts for a password, enter the password "0000".)
- Once the pair is completed, a tone will be heard. You can also tell the pairing is successful or not by the pairing status on your digital devices.
- Start playing music on your device. Make sure that you keep your device within a 33 feet range of your Bluetooth speaker.
- Adjust the volume of your device to a comfortable level.
- Turn off the unit when not in use.

Light and Water Dancing Operation

- Plug in via the MINI USB cable (included) to the main speaker and connect the speakers **to each other** via MINI USB cable (included), the light will light up automatically.
- Play music on your mobile device, the light will be steady and NOT dance to the music. The water jets will dance to the beat of music.
- Remove the power source, the lights will turn off accordingly.

Auxiliary function

- For digital devices without Bluetooth function, auxiliary function is an option.
- Insert the 3.5MM jack to the aux port of the speaker and to the port of your digital devices.
- Start playing music on your device. You can use this model as a pair or as one. The main unit can be used separately. The sub unit cannot be used separately.
- Adjust the volume of your device to a comfortable level.
- Turn off the unit when not in use.

Caution:

- This is not a toy. Please keep away from children.
- Please keep away from water / heat.
- Low power may cause poor connection even no working of Bluetooth.
- Do not overcharge the battery.
- Battery pack shall not be exposed to excessive heat such as sunshine, fire or the like.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
