About Windows Start Screen

You can use a keyboard & mouse or touchpad to navigate the windows start screen.

- Find Settings**
Select the Start button and then select the Settings icon .
- Shut down your computer**
Select the Start button , select the Power icon , and then select Shut down.
- Display the Start menu**
Select the Start button in the lower-left corner of the taskbar.
- Search**
In the taskbar search box, begin typing the name of an app, setting, file, or Internet topic.
- Switch between open apps**
Select the Task view icon in the taskbar.

The features and appearance of the Windows screen vary, depending on the version of the operating system and additional software installed on your computer.

Two Usage Modes

The display screen can rotate 360 degrees and TP can support 10 point touch. You can switch between normal laptop mode and tablet mode.

1. Normal Laptop Mode

When the display screen is opened at an angle less than 180°, the device is running in normal laptop mode.

2. Tablet Mode

When the display screen opening angle is more than 180°, the system will prompt whether to enter the tablet mode. After clicking yes, the system will automatically enter the tablet mode, meanwhile the keyboard and touch pad stop working. The display screen can be used vertically under tablet mode.

When the display screen angle is turned back to less than 180°, the system will prompt whether you will exit the tablet mode.
