

## Cover Letter

Product name: Thermal Printer

Model Number: P3,P3L,P3S,PAPERANG P3,PAPERANG-P3,  
P3B2,P3Y2,P3A2,P3Z2,P3N2,P3S2,P3C2,P3W2,P3X2

FCC Identifier:2APWO-PAPERANG-P3

In the RF part, our Bluetooth is still the same, there is no change, but the circuit of the motherboard is changed, the printing MCU scheme has changed, relevant components and bit numbers have been changed, please refer to schematic diagram for details. The Bluetooth module and Charging chip is the same as before.

	Before	Now
Radio frequency	2402MHz-2480MHz	
RF Max output power	DTS:-2.30dBm DSS:-1.63dBm	DTS: -2.306dBm DSS: -2.194dBm
Radio frequency circuitry	No change	
functional capabilities	No change	

The updated product does not affect rf performance, and the test results show that its indicators comply with FCC rules.
