

5G HAC capability declaration

As an Accredited test lab, when will CTTL have the ability to Test 5G? Answer: Because our radio communication tester does not support the test of this part of the function, the alternative method provided by KDB285076 D03 A9 is used in Chapter 11. and We plan to purchase a new instrument with VONR function by the end of this year.

A handwritten signature in black ink, appearing to read '吴旭东' (Wu Xudong), is positioned above a horizontal line.

(Wu Xudong)
