## UL Listed 5000 mAh Wireless Power Bank

ITE: Accessories

Lithium ion Battery

UL 2056 certified

Model: AB0137 Item No.: 7121-75  
PO: XXXXXX  
Input: DC 5V/1A Output: DC 5V/2A  
Wireless output: 5V/1A  
Battery/Cell capacity: 18.5Wh, 3.7V/5Ah  
Product capacity(USB): 13.75Wh, 5V/2.75Ah  
Product capacity (Wireless): 10.25Wh, 5V/2.05Ah  
S/N: 201910 299376  
CAUTION: Risk of Fire and Burns  
MADE IN CHINA

### Product specifications:

- Powerbank Input: DC 5V 1A
- Powerbank Output: DC 5V 2A
- Wireless charger Input: DC 5V 1.5A
- Wireless charger Input: DC 5V 1A
- Battery/Cell capacity: 18.5Wh, 3.7V/5000mAh
- Product capacity(USB): 13.75Wh, 5V/2.75mAh
- Product capacity (Wireless): 10.25Wh, 5V/2050mAh
- Charging efficiency: 75%
- 5 LED: Left LED (red color) is wireless indication light rest of four LEDs are powerbank indication light.

### Instructions:

#### PowerBank Charging Method

Connect the Powerbank with a DC USB port. Plug the micro USB end of the cable to the power bank. In charging condition, the blue indicator LED will flash. When the indicator light static that means the Powerbank is fully charged.

In charging condition of mobile phone device, please press the button and the blue LED indicator will switch on. In case you need to terminate the charging, double press the button again to stop it

#### Wireless charger Charging Method

Press the button then place a device on the wireless charging receiver for charging.

### Attention:

1. Please keep the charger away from water or other liquid.
2. If you need to clean the charger, please make sure it is not connected to the power supply.
3. Please choose the suitable connector according to your electronic product.
4. Please unplug the charging USB after the electronic product is fully charged.

### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
