Product specs:

Product model:

Main functions: wireless charging transmitter;

Standard version: WPC - 1.1;

Charging type: one-on-one charge corresponding area;

Input Specs: DC: 5V/1.5A

Output Specs: 5V, 1000 mA

Effective Distance: 4 to 6 MM ;

Conversion efficiency: $\geq 70\%$;

Charging methods: induction model;

Working frequency: 111.5-205kHz;

Accessories: USB cable; Wireless charging

pad; Packing box, and instruction sheet.

Warning! This wireless charger is designed to charge qi compatible mobile phones. Do not wireless charge Air Pods, AirPods Pro and any other Earbuds with wireless charging case.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The distance between user and products should be no less 20cm
