

ZYGO SAFETY INFORMATION

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. This device complies with Part 15 of the FCC rules and with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
(2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible

d'en compromettre le fonctionnement.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Your device is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The FCC has established criteria for the amount of radio frequency energy various products may produce depending on their intended usage. This product has been evaluated and found to comply with the FCC's

exposure criteria. For body exposure guidelines were the accessories supplied or Use of other accessories compliance with FCC and should be avoided.

Caution: Any changes expressly approved by for compliance could authority to operate or modifications not the party responsible void the user's this device.

worn operation, the FCC RF also met when used with designed for this product. may not ensure RF exposure guidelines

This device operates on a no-interference, no-protection basis. Should the user seek to obtain protection from other radio services operating in the same TV bands, a radio license is required. For further details, consult Innovation, Science and Economic Development Canada's Client Procedures Circular CPC-2-1-28, Voluntary Licensing of Licence-Exempt Wireless Microphones in the TV Bands.

This device must not be co-located with other transmitters. The installer of this radio equipment must ensure that the antenna is located or pointed such that it does not emit RF fields in excess of Health Canada limits for the general population; consult Safety Code 6, obtainable from Health Canada's website: www.hc-sc.gc.ca/rp

Headset Light Guide

= pairing with case = low battery
 = paired with case = charging
When the headset reaches a full charge, its amber light goes OFF.

Case Light Guide

= searching for best RF channel
 = connected to Bluetooth (BT) while searching for RF channel
 = pairing with headset
 = paired with headset, no audio
 = paired with headset, streaming BT audio
 = case's internal battery is less than 10%
 = case is plugged in and charging the headset and/or its own internal battery
 = when the case is plugged in, a white LED means the headset and case are both fully charged

Charge here with the
USB-C cable provided

Hold down to power
the case on/off

TO GET STARTED

1. Flip up the antenna (back of case)
2. Turn on the headset and case
3. Find Zygo in your phone's Bluetooth list
4. Leave the case poolside

Dry off your headset before returning it to the case.
If the case battery is charged, the headset will charge automatically.
