Warranty coverage

30-day unconditional money-back guarantee. If you are not completely satisfied with this product for any reason, Sbarda will gladly refund your purchase cost within 30 days of purchase (from the date of retail purchase).

1-year limited warranty, ONE(1) YEAR from the date of retail purchase. If a hardware defect arises (not due to personal alterations or attempted repairs) and a valid claim is received within the Warranty Period, Sbarda will either:

- Repair the product for free.
- Replace the product with new one or which has been manufactured from serviceable used parts and is at least functionally equivalent to the original product.
- Refund the purchase price of the product.

Sbarda may request that you send the product back to our address for the replacement/refund. The location will change according to your area of residence. Please contact our customer service for confirmation. Sbarda WILL NOT cover the shipping cost. Sbarda only offers warranty service for our official Amazon store and distributors. We need the order information, for example, the Amazon order number to verify your order.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
