Bluetooth Speaker Sleep Aid Machine

**H3**

80 mm

60 mm

**1. Product Description**

The H3 Bluetooth speaker sleep aid machine transmits audio signals through Bluetooth wireless transmission technology, and using Bluetooth version 5.3 which is the latest Bluetooth communication standard in the design. It is compatible with the lower version of Bluetooth communication standards, and the performance in all aspects has been further improved to a higher level. It is not only a Bluetooth speaker but also a sleep aid machine, with a variety of natural sound effects, music player timer, compact and portable, allowing you to enjoy a better life!

**2. Product Parameter**

- Item NO.H3
- Bluetooth version: 5.3
- Speaker battery: 300mah
- Working temperature: 0 ~ 45°C
- Effective distance: 10 meters
- Charging method: Type-C
- Key type: key/button
- Speaker horn specifications: 4Ω/3W external magnets
- Speaker charging time: 1-2 hours
- Speaker working time: 2-3 hours
- Sleep aid machine music playtime: 3-4 hours
- Standby time: more than 180 days
- Input voltage: DC 5V
- Charging current: 300mA

**4. Safety Instructions**

In order to prevent some dangerous situations during usage, please read the safety instructions before usage.

- Please do not place the product near heating equipment such as heaters, microwave ovens, rice cookers, high voltage cookers, to prevent the product from overheating and causing a fire.
- Please do not drop or hit the product to avoid an explosion.
- When used by children, please ensure normal operation under adult supervision.
- Do not use in low temperature and humid environment, please use under the environment of 0-45°C.
- Do not disassemble or repair the product without authorization.
- Do not place the product within 20cm from the medical equipment to prevent Device interference occurs.
- When not in use, please unplug the product charger from the socket to avoid draining battery life or causing damage.

**5. FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
