

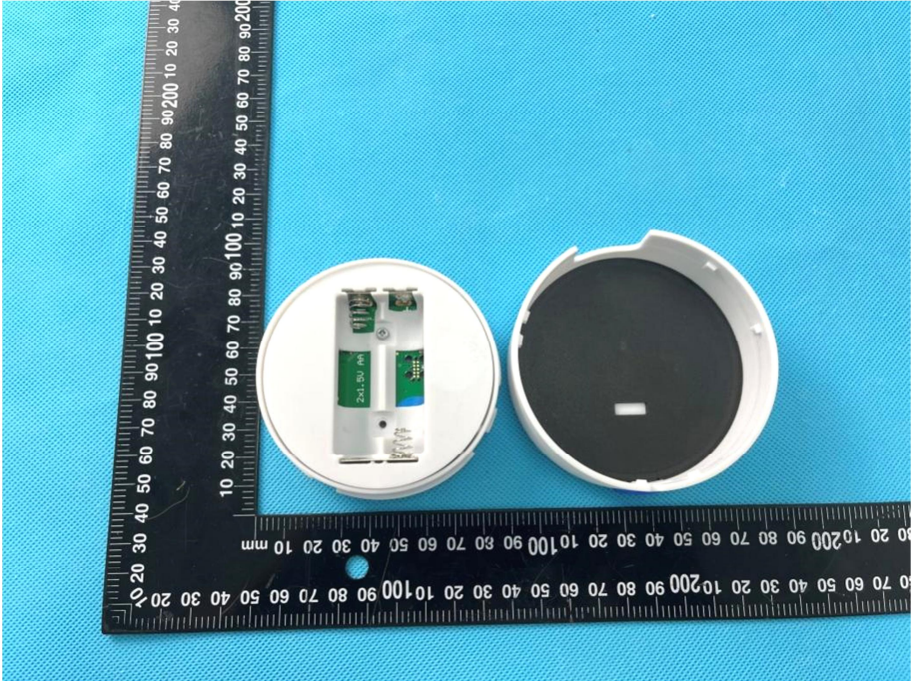

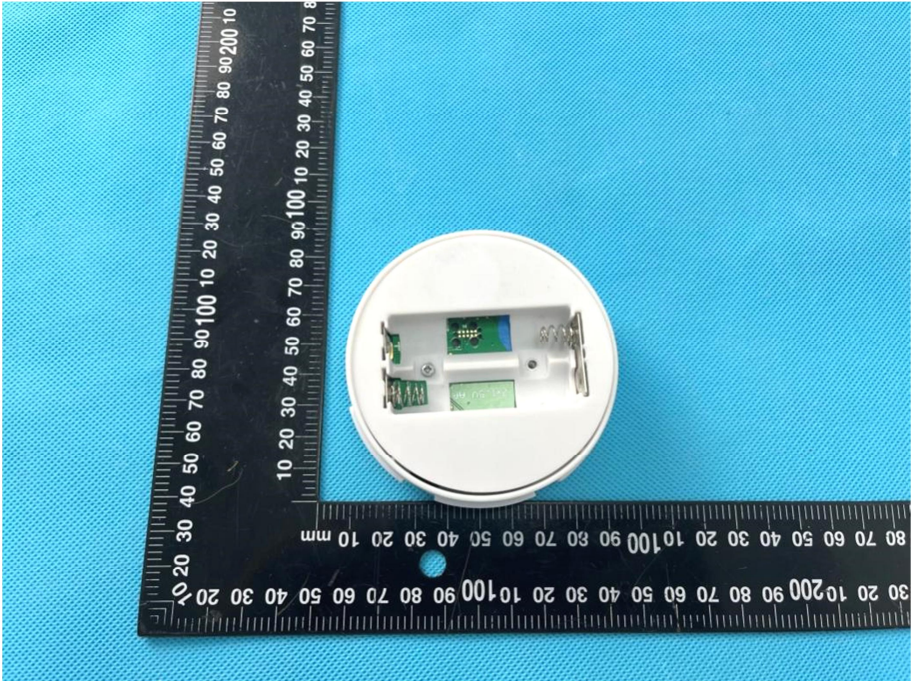

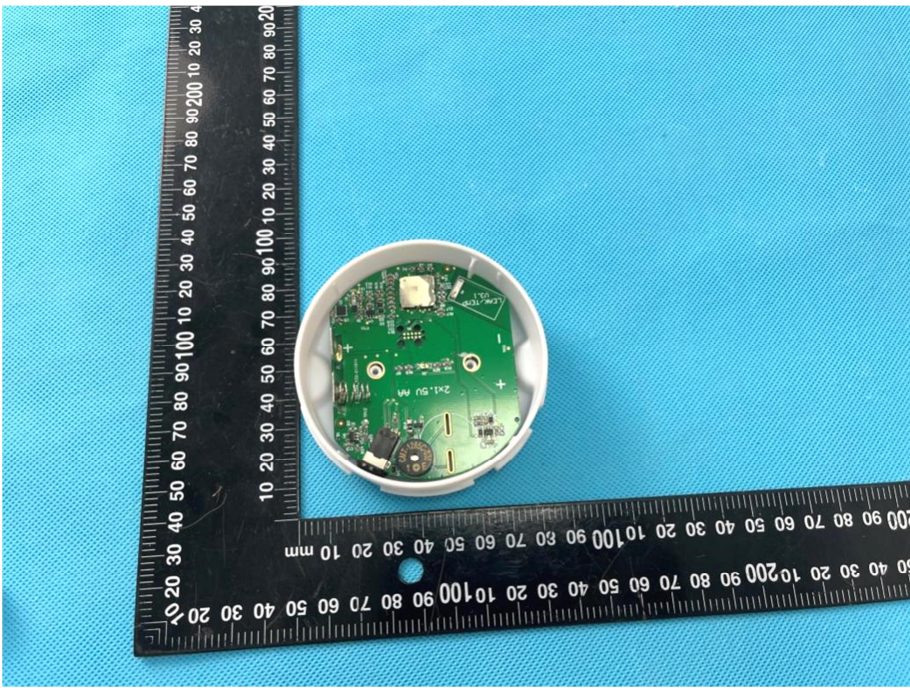

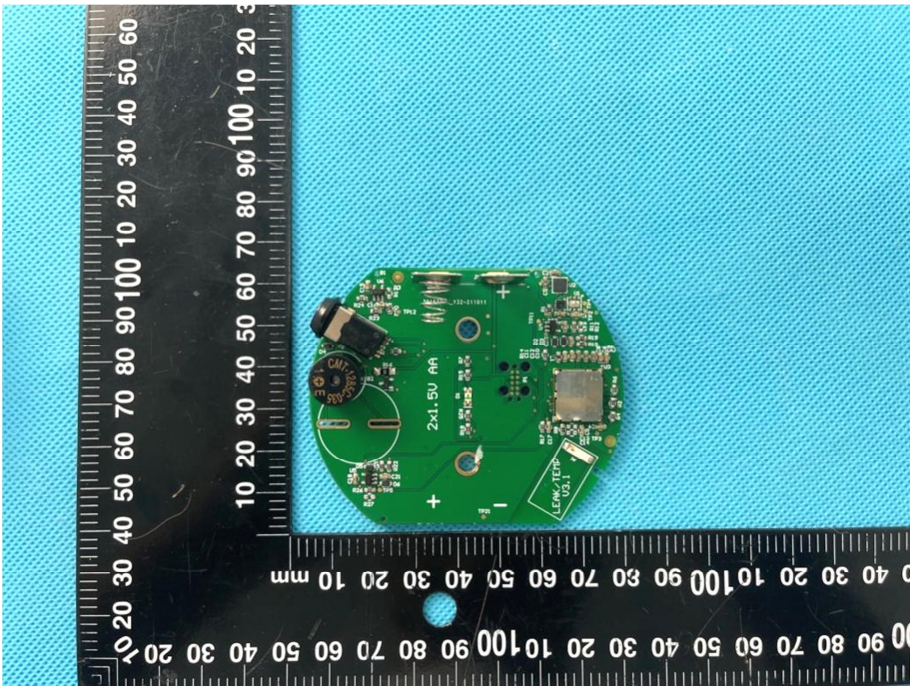

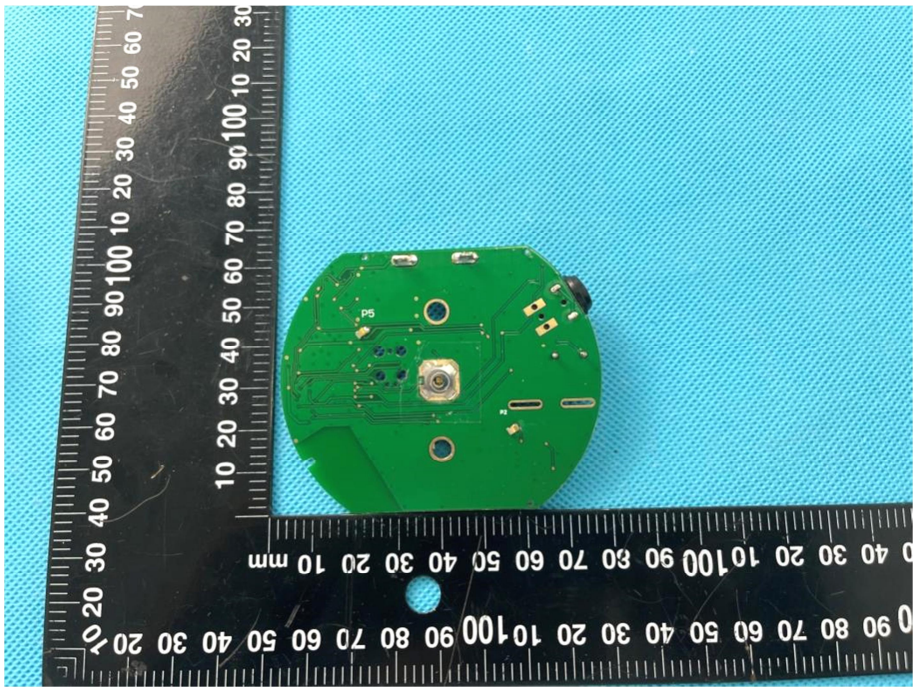

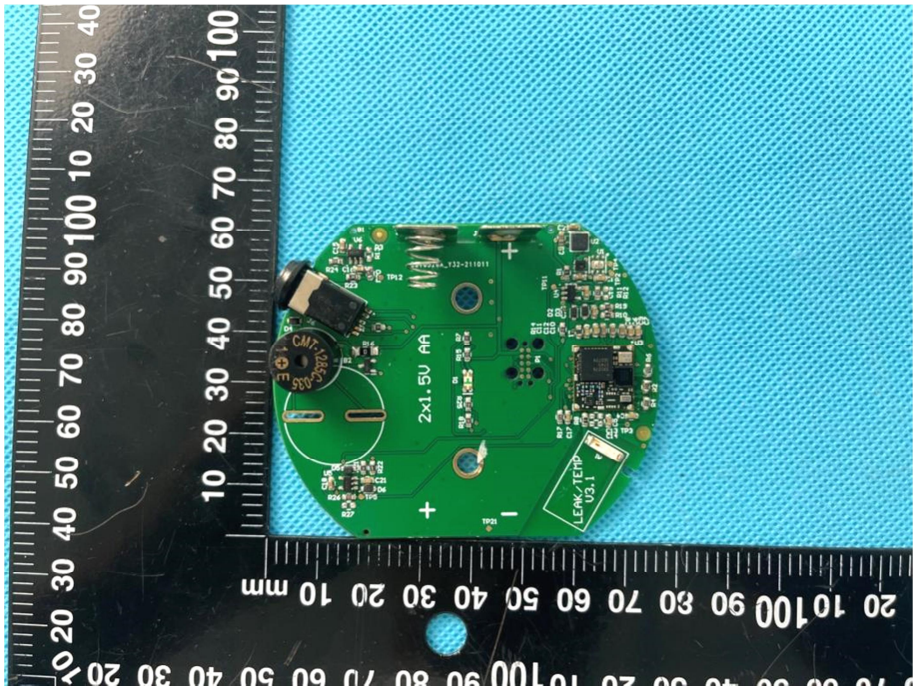

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	
<p><b>EUT Housing and Board View 2</b></p>	

<p style="text-align: center;"><b>Solder Board-Component View 1</b></p>	 A photograph showing a green printed circuit board (PCB) mounted inside a white plastic circular housing. The PCB is populated with various electronic components, including a microcontroller, resistors, and capacitors. A black L-shaped ruler is placed next to the board for scale, with markings in millimeters. The background is a light blue textured surface.
<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	 A photograph showing the same green PCB as in View 1, but without the white housing. The board is laid flat on a light blue textured surface. A black L-shaped ruler is placed next to it for scale. The components on the board are more clearly visible, including a microcontroller, a capacitor, and various surface-mount components. The text '2x1.5U 0A' and 'LEAK/TEMP UG.1' are visible on the board.

<p style="text-align: center;"><b>Solder Board-Component View 3</b></p>	 A photograph of a green PCB component, labeled '3', showing the solder side. The component is circular with a central circular feature and several smaller components. It is placed on a blue textured surface next to a black ruler for scale. The ruler shows markings in millimeters and centimeters.
<p style="text-align: center;"><b>Solder Board-Component View 4</b></p>	 A photograph of a green PCB component, labeled '4', showing the solder side. The component is circular and densely populated with components, including a large black component on the left, a central chip, and various passive components. It is placed on a blue textured surface next to a black ruler for scale. The ruler shows markings in millimeters and centimeters.

**Antenna View**
