**ENGLISH**

**WARNING**

- To reduce the risk of Fire, Electric Shock, or injury to Persons.
- Place the appliance on a stable, level and non-slippery surface.
- Do not use the appliance as an overhead lamp (e.g. in the bathroom or near a bathtub or swimming pool).
- Make sure the adapter does not get wet.
- Do not let water run into the appliance or spill water onto the appliance.
- Only use the original adapter. Do not use the other adapter if they are damaged.
- This appliance has a non-slip switch. To disconnect the appliance from the power source, remove the plug from the wall outlet.
- Do not use the appliance as a means to reduce your hours of sleep. The purpose of this appliance is to help you wake up more easily. It does not diminish your need for sleep.

**STORAGE**

- Clean the appliance with a soft cloth.
- Do not use abrasive cleaning agents, pads or cleaning solvents like alcohol, acetone, etc., as this might damage the surface of the appliance.
- The appliance will be tested for an extended period of time, when the power cord from the wall outlet and the appliance is in a safe, dry environment where it will not be exposed to direct sunlight or damage.

**OVERVIEW**

- Alarm Clock 2
- Alarm Clock 1
- Sleep Timer
- Dimmer Knob
- Light Button
- Power Button
- Volume
- Radio
- Volume
- Setting Button
- USB Output
- FM Antenna

**OPERATION GUIDE**

First use setting the clock time: You have to set the clock time when you plug in the appliance for the first time.

**Set the time**

Plug in the power and start setting.

Hold [DIM] for 3 seconds until the hour time begins to blink.

Use [L] or [R] to adjust the hour.

Press the [L] or [R] again to confirm the hour and move to the minutes.

Use [DIM] to adjust the minutes.

Press the [OK] and [L] or [R] again to confirm the minutes and move to choose the time format.

**Note:** When the 12-hour format is selected, PM or AM will be displayed.

**Setting Alarm Clock**

You can set four alarm clocks for this wake-up light. (Note: Clock 3 & Clock 4 can only be set on APP.)

Take Clock 1 setting as an example:

1. Use the dimmer knob to confirm the alarm sound and select the alarm sound volume, and press [DIM] to adjust the volume.

2. Press [L] or [R] to set the alarm time, and press [OK] to confirm the alarm time.

3. Press [L] or [R] to confirm the alarm time and move to the minutes, and press [DIM] to adjust the minutes.

4. Press [L] or [R] to confirm the minutes and move to the hours, and press [DIM] to adjust the hours. When you have finished, press [OK] to confirm the alarm time.

**Note:** When the 12-hour format is selected, PM or AM will be displayed.

**Note:** When the 12-hour format is selected, the light will automatically turn on when the alarm sounds and will turn off when the alarm sounds again. The light will turn off when the alarm sounds again. The light will turn off when the alarm sounds again.

**SNOOZING**

When alarm clock goes off, press [L] or [R] to snooze. You can get up with 7 more minutes of sleep time.

When alarm clock goes off, press [L] or [R] to snooze. You can get up with 7 more minutes of sleep time.

**When alarm clock goes off, press [L] or [R] to snooze. You can get up with 7 more minutes of sleep time.**

\*When alarm clock goes off for a second start, press the corresponding alarm clock button to turn off light and snooze.

\*When alarm clock goes off, if there aren't any operations within 15 minutes, it will turn light off and snooze automatically.
