- Micro USB Charging Port
- Charging Slot for the Left Earbud
- Left Earbud
- LED Display
- Right Earbud
- Charging Slot for the Right Earbud

LED Display

Battery Percentage of the Charging Case

Battery Level Indicator of the Left Earbud Battery Level Indicator of the Right Earbud

* The LED Display will be off if there is no operation on the product. Just open or close the case to turn it on again.

Earbud

- Ear Tip
- Touchpad
- Charging Pins
- Microphone/LED Indicator

CHARGE

Please charge the Charging Case and earbuds at your first use with the USB Cable provided.

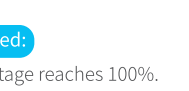

Charge the Charging Case

- Connect the USB Cable into the Micro USB Charging Port on the Charging Case.
- Connect the other end into a USB wall charger or a compatible adapter with 5V/1A DC in. It takes around 4 hours to reach a full charge.

Charging: The second number of the percentage keeps flashing.

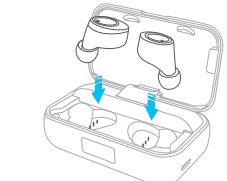

Fully Charged: The percentage reaches 100%.

Charge the Earbuds

The earbuds will be charged while they are in the Charging Case.

Step 1: Align the Charging Pins on the earbud with the Charging Pins on the Charging Slot in the case.

Step 2: Place the earbud into the case until it magnetically snaps into the Charging Slot.

Step 3: Close the Charging Case.

Charging: The Battery Level Indicator will keep flashing.

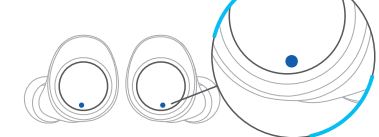

Fully Charged: The Battery Level Indicator reaches 4 levels. (1 level indicates 25% power.)

POWER ON

Option 1: The earbuds will be powered on automatically once you open the cover of the Charging Case. The LED Indicator will flash blue for 3 times, indicating that the earbuds are powered on successfully.

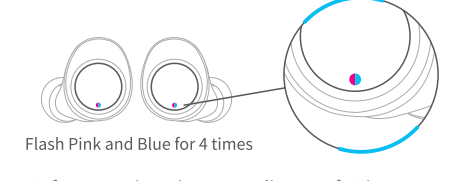

Option 2: When the earbud is in power-off status, please tap and hold the Touchpad for 5s to power on. You will hear a beep from the earbud.

Note: To hear the beep, please make sure you are wearing the earbuds.

TWO EARBUDS PAIRING

After the earbuds are powered on, the LED Indicators of earbuds will flash pink and blue quickly for 4 times to pair with each other automatically.

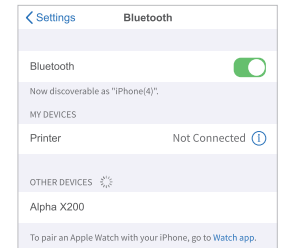

Flash Pink and Blue for 4 Times

Wait for around 3s, the LED Indicator of either earbud will flash red and blue alternatively and slowly, which indicates that the earbuds have been paired successfully and are ready to connect to a mobile device.

CONNECT AND DISCONNECT WITH A MOBILE DEVICE

Connect

Turn on the Bluetooth on your device, search and connect to Alpha X200.

Alternatively Flash Red and Blue

Tip: If the earbuds' automatic pairing fails, please tap twice on both earbuds to manually pair the earbuds.

The LED Indicator on the earbud will be off and there is one beep from your earbuds if the connection is successful.

Notes:

- The earbuds will be automatically powered off if they are not connected with any device within 3 mins.
- If the bluetooth is disabled on your device or you turned off the earbuds, it will take around 10s to automatically reconnect the earbuds with the device after you enable the bluetooth or turn on the earbuds again.

Disconnect

Go to the Bluetooth interface of your mobile device, select Alpha X200 and Disconnect/Upair to disconnect the earbuds.

FIT THE EARBUD INTO YOUR EAR

- Insert the earbud gently so the ear tip can rest in the opening of the ear canal.
- Gently and slowly adjust the earbud until it securely and firmly fits in your ear.

FUNCTIONS OF EARBUDS

Volume

Volume +	Tap and hold the Touchpad of the Right Earbud until you get the desired volume
Volume -	Tap and hold the Touchpad of the Left Earbud until you get the desired volume

Music

CHARGING CASE USED AS A POWER BANK

You can use the Charging Case to charge your mobile devices.

Step 1: Connect the Micro USB to USB Adapter into the Micro USB Charging Port on the Charging Case.

Step 2: Connect one end of the USB cable to the adapter and the other end to the charging port on your mobile device.

SPECIFICATIONS

Model No.	M106/M105/M107/M108/M109
Power Supply	DC 5V/1A
BT Version	BT5.0
Battery Capacity of the Charging Case	3500 mAh
Charging Time for the Earbud	1H
Charging Time for the Charging Case	4H
Call Time	5H
Playtime	Around 7H (with 60% volume)
Standby Time for the Charging Case	200H
Working Temperature	0-40°C

FCC Caution

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED/C Warning

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- l'appareil ne doit pas produire de brouillage, et
- l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance.

Le présent appareil est conforme Après examen de ce matériel aux conformités ou aux limites d'intensité de champ RF, les utilisateurs peuvent sur l'exposition aux radiofréquences et la conformité et compliance d'acquies les informations correspondantes.

CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

The symbol indicates DC voltage

RECYCLING

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

NOTES:

- High Sound Pressure
- Hearing Damage Risk
- Do not listen at high volume levels for long periods.
